GERMANS IN DANGER OF LOSING PERONNE

Somme Front Continues to Be Scene of Heavy Fighting on Part of Both Allied Armies

TEUTONS LOSE 650 PRISONERS AND GUNS

Franco-British Lines Being Straightened So Advances of Each Are Increasing in Effect

LONDON, July 20.—Heavy fighting continues on the Somme front. The war office announced today that the British had gained ground in Delville wood and Longueval.

PARIS, July 20.—French troops resumed the offensive on both sides of the river Somme last night, with successful drives against the German lines both northwest and southwest of Peronne. It was officially announced today.

North of the Somme, French infantry established new lines along the Combles-Clery narrow-gauge railway, taking 400 prisoners. South of the Somme, French troops stormed and captured the entire first-line trench between Barleux and Soyecourt.

The advance north of the Somme further straightened the French line to conform to the recent British advance. The attack south of the Somme was another gain in the campaign to clear the Germans from the bend of the Somme.

NOTABLE SUCCESS.

On the Verdun front, the French scored a notable success in last night's fighting, capturing a strongly fortified German work south of Fleury and northeast of Verdun, and taking 150 prisoners. Another French detachment made further progress west of Thiaumont in the same region.

The Germans made an unsuccessful attack at 7 o'clock last night on French posts near Bolante, in the Argonne.

German aeroplanes were brought down during yesterday's fighting.

On both sides of the Somme our infantry this morning attacked German positions and gained notable advantages. North of the Somme we captured enemy trenches from Combles-Hardcourt as far as the river line carried our line clear to the east of Hardcourt along the railway to the narrow road which runs from Combles to Clery.

South of the Somme, the first-line enemy trenches fell into our hands. In the Champagne we penetrated a German trench north of Auberville. In the Argonne the Germans attempted a coup de main upon our small posts in the Argonne salient. After a lively hand-to-hand battle, the enemy was repulsed.

Upon the left bank of the Meuse bombardment continued in the regions of Avocourt and Chantecourt, together with hand-to-hand fighting on the slopes northeast of hill 304.

On the right bank we progressed west of Thiaumont works. South of Fleury a powerfully fortified work held by the enemy was captured by our troops, who took prisoner several officers and 150 men.

In the region of the Somme a German aeroplane was brought down yesterday afternoon. East of Peronne another enemy machine was brought down near Gremlilly, in the Verdun region.

SHELL DRENCHED.

WITH THE BRITISH ARMY IN NORTHERN FRANCE, July 20.—Every foot of the new German positions behind the lines captured by the British north of the Somme is being carefully and slowly drenched with a destructive fire of British high explosives in preparation for a new attack. Giant British shells are now being unrolled in the rear. British shells are being rolled to the rear. British shells are being rolled to the rear.

The roar of guns is continuous and resembles the heavy roll of thunder. The Germans are replying only occasionally. Either they are seriously out-gunned or are saving their ammunition.

British aircraft, without molestation, are directing the fire of the artillery. Since the beginning of the Anglo-French offensive German aircraft have been surprisingly absent. Allied flyers and balloon observers have been working in perfect security, obtaining most valuable information.

From a height a short distance in the rear they obtained an excellent view of Tricornet, Containville, Mametz village, Mametz wood, Bazentin-le-Grand and other positions recently conquered by the British. A party of correspondents traversed the ruins of the Somme and entered the ruins of Fricourt, once a German stronghold, but stormed and captured by the British early in their great offensive.

Many to March in Great Parade City to Show Preparedness Spirit

PRESIDENT WILSON AS HE APPEARED AT THE HEAD OF THE PREPAREDNESS PARADE AT WASHINGTON, D. C. ON JUNE 14. THIS WAS THE FIRST OCCASION IN THIS COUNTRY'S HISTORY UPON WHICH THE PRESIDENT OF THE UNITED STATES MARCHED AFOOT OF HISTORIC PENNSYLVANIA AVE. AS A PARTICIPANT IN A PROPAGANDA PARADE.

VILLA ALIVE AND CAPTURE CERTAIN SAYS MESSAGE

MILITARISM HAS COME TO INVAD

STANFORD CAMPUS

Refugees Say United States Has Ordered Americans From Mexico.

GALVESTON, Tex., July 20.—The capture of Francisco Villa by cavalry of the de facto government is momentarily expected, according to a cablegram received today by Juan A. Mateos, Mexican consul here. This message says that yesterday a Villa messenger was captured by Carranza troops. The messenger is said to have told where Villa was located and a force has been sent to capture him. The messenger reported that Villa was ill and seeking medical aid.

The name of the small town where Villa is said to be located is not given in the dispatch to Consul Mateos. It is understood to be in the state of Chihuahua, not far from Chihuahua City.

Refugees arriving here today from Vera Cruz reported that Consul Canada has ordered all Americans out of Mexico. They say Canada received instructions to that effect Sunday, despite apparently peaceful conditions.

CHIHUAHUA CITY, Mex., July 20.—Villa and his main band were in the vicinity of Amador, about 30 miles south of the Durango line, according to reports received from General Matias Ramos at General Jacinto Trevino's headquarters here today. The message, which was relayed from Rosario, General Ramos' base at Tepic, was received by General Laveaga, was meager, because of the difficulty of telegraphic communication.

General Trevino announced, however, that the government troops still have the band, which consists of about 800 men, surrounded and that Villa's early capture seems probable. Reports from the garrison at Guadalupe indicated that should the band attempt to push on southward, the garrison at that point is prepared to reinforce General Ramos, who commands a force of about 4000.

Announcement was made also at the commandancia today that General Luis Caballero, once governor of the state of Tamaulipas and more recently stationed at Mexico City, has arrived in Tampico to assume command of the fifth division of the army of the northwest, relieving General Nafarrete, ordered to the capital.

NUMEROUS SUITS END IN DIVORCE

Mrs. Jessica Westfall May Now Live "Wider Life"

Wife of Capitalist Gets Decree on Cross Complaint.

SAN FRANCISCO, July 20.—Mrs. Jessica S. Westfall, wife of Samuel H. Westfall, wealthy mining man and capitalist, will be free to live the larger life and enjoy the pathways of a wider and brighter existence as the result of the granting to her of a decree of divorce by Superior Judge James Trout this morning.

That she cleaned wisely and too well was his declaration when he brought his suit to recover over \$400,000 in stocks and bonds with which he asserted she fled to Salt Lake City. He stated that she told him: "I have nothing in my soul and there are no reflections of a larger life which beckons me like an entrancing mirage."

None of these whistlings from a supreme existence were wasted into the court room today. Attired in a blue gown of wonderful attractiveness, and in a calm voice with an occasional smile lighting up her features, Mrs. Westfall from the witness stand told her version of the story, and there was none to refute her.

She said she was going back to her own home to take up her life anew, but she did not refer to it as "back-sliding," but as an "entrancing mirage."

HAS ANOTHER STORY.

"I was not the one who fled away from the home of my father," she testified. "I received several inheritances from my father. I knew what was mine and I placed the bonds and stocks in the hands of Samuel H. Westfall, my cousin, for safe keeping. I did not flee to Salt Lake City. I went of my own accord."

Mrs. Westfall declared that on one occasion, when with her husband, she was fishing for rock cod off Ocean View, he accused her of intimacy with a man of the company.

Her corroborating witness was her cousin, Day, who said that he knew of these charges on the part of Westfall. No mention was made of the more than fifty letters which Westfall was supposed to have in his possession, nor was the mysterious man whose existence has been repeatedly mentioned brought forward. He was supposed to be one of two admirers residing at the St. Francis Hotel.

Mrs. Westfall was given a decree on her own cross-complaint, all of the property settlements having been adjusted privately between the parties. Following Westfall's filing of the suit, there were repeated injunctions and stays followed by the wife's complaint.

Westfall family home is at 1654 Taylor street.

Two Men Battle With Shark in Bay Waters

SAN FRANCISCO, July 20.—A terrific half-hour battle in San Francisco bay with a nine-foot shark, in which the shark was killed and its carcass brought ashore, was reported today by Bertram Upton and two companions.

The fish was encountered late yesterday off Angel Island where the men were fishing for rock cod. Upton's line received a strong pull and a moment later the shark came to the surface. The men attacked it with knives and oars and the shark died, almost upsetting the boat several times.

Finally the giant fish was dragged to the shore and killed with bulldozers. It weighed about 300 pounds, Upton estimates.

Heat Wave Continues in Central States

CHICAGO, July 20.—After going to a season's record, Chicago's temperature was sent tumbling today by a thunder storm. Five died yesterday when the government thermometer reached 106 degrees.

The forecast today held out no hope for cooler weather in the Middle West this week, except immediately around Lake Michigan.

Phoenix, Ariz., was the hottest place in the United States yesterday with 106 degrees.

"Missed Shot" Kills Two Mining Men

NEVADA CITY, Cal., July 20.—A "missed shot" in the Plumbago mine at Allegheny exploded today and killed Timothy Herrington and Charles Franer, two miners, when they drove their drill into it unaware.

Shoots Officer And Kills Self

Crazed Man Runs Amuck in Santa Cruz

SANTA CRUZ, July 20.—After having shot and seriously wounded Policeman Robert J. Robertson, set his own house afire and engaged in a revolver battle with police and firemen, Louis Miller, 53, a shoemaker, today committed suicide before the officers could capture him. He is believed to have been demented.

Without warning, Miller emerged from his cabin today carrying a shotgun and fired twice at Robertson and his son who were working in their vegetable garden next door. One charge struck Robertson and seriously wounded him. Miller then dashed back into his cabin and seized a rifle after setting fire to the house. He stood in the doorway and opened fire on the firemen and police as they approached, but without effect. The police returned the fire and advanced and Miller then sent a bullet into his own head. He fell dead in the doorway of his blazing home.

OAKS TEAM IS SOLD; LEAVITT OUT, HOWARD IN

Ex-Manager of S. F. Club Takes Equity in Stock of Local Fan.

George E. "Del" Howard, manager of the San Francisco ball club in 1914, has purchased part interest in the Oaks, and will become their manager on August 1. President Frank Leavitt has sold his interest in the Oaks to Howard, an ex-manager, who, with Jack Cook, will now control the stock of the club.

Announcement of the deal was made this morning by President Frank Leavitt, who informed that he would retire from baseball completely and seek a long rest. Further than that the retiring magnate would make no statement.

Howard needs until August 1 to arrange his affairs and preparatory to assuming his place in baseball once again. "It is believed he plans a complete rehabilitation of the Oaks, and the acquisition of a number of high-class players."

So far as is known the Detroit club has not yet closed for "Rowdy" Elliott. If the former Oakland manager does close, Howard will be in a position to accept the offer of Frank Chance to trade Catcher Walter Boles and an infielder to Oakland for Elliott.

HAS FINE RECORD.

By virtue of today's deal Oakland has lost its major league manager, Harry Wolverton, present Seal pilot, was the boss of the Oaks in 1911, while Howard ruled the Seals in 1914.

George Elmer Howard, named "Del" because of his hitting ability in the past, resembles the late George Delehanty, is aged 37 years, and had had eighteen years of experience in professional baseball. He came to San Francisco at the close of the 1912 season from the American Association, where he led the league in hitting.

Howard played with the Chicago Cubs during the championship days, and also with the Pirates and the Boston Nationals. With the Cubs, he was used in the regular role of pinch hitter, and for a long while was understood to be Frank Chance's first choice.

Now the fans will find him competing against his old boss.

Howard assumed the management of the Seals on short notice in 1912, taking Danny Long's place. He quickly built up a crack team, practically the same one which enabled Harry Wolverton to win the pennant with last year.

SCRAPPY MANAGER.

Howard has always been regarded as a fighting, scrappy manager. He is a man who is always in the game, whether ten runs behind or whether his club is far ahead. "Del" has the punch, and to say that it has often been said that this is the reason that has been lacking in the Oakland club.

Howard knows a ballplayer when he sees one. Besides, he has wide athletic ability, and his knowledge of the Easterners, should enable him to acquire several crackerjack ballplayers.

Howard is married and he resides at Paso Robles, where he has a ranch. His home is in Kenilworth, Ill.

Chicago Plans to Reorganize Police

CHICAGO, July 20.—Chief Justice Harry Olson of the Municipal Court today announced that the Chicago Crime Commission was working on a plan to reorganize the entire police department "to change the fundamental idea of the service." The plan, which is to be presented to the city council, will represent the ideas of the best criminal, social and economic experts of the country, it was stated and will contain measures for dealing with dangerous "half-wits" like Henry McIntyre, the negro who killed four persons last Tuesday.

Dutch Council Blames "Unknown" for Attack

BERLIN, July 20.—The Dutch shipping council has completed its investigation of the explosion which damaged the Holland-America freighter Bemidji last April. It has decided the Overseas News Agency says, that the explosion was caused by a torpedo of unknown origin.

JOHNSON'S PACT WITH PHELAN IS SHATTERED

Senator Gives Pledge to Geo. S. Patton and Urges Southern Man to Seek Place in Senate

GOVERNOR MUST MAKE FIGHT ALONE

Progressive-Republican Faction No Longer Unit of Value in Political Trade, Is Said

The mutual benefit league formed two years ago by Hiram W. Johnson and James D. Phelan, to promote the election of one as Governor and the other as United States Senator, has been disbanded, disrupted, busted. The coalition between the men for the frank exploitation of the rank and file of the Democratic party and the former Progressive party has been abruptly terminated.

Senator Phelan touched off the fireworks, although it is apparent that Governor Johnson planted the explosives.

Phelan has utilized the entry of George S. Patton of Los Angeles into the Senatorial race as a Democratic candidate for announcing his break with Johnson. The Woodrow Wilson Independent League sent out yesterday from its headquarters in Los Angeles a "true copy" of a telegram from Senator Phelan to Patton, in which the first Democrat indorses the last-named Democrat's candidacy.

"Accept my very best wishes for your success in the Senatorial campaign," wired Senator Phelan to Patton. "That might have sufficed, because there is a popular impression that the politician cannot divide his very best wishes between two candidates for the same office, and Governor Johnson had decided to perform his painful duty of running for the fifth of attractions when the Phelan telegram was sent."

SAYS IT ALL.

But Senator Phelan for once in his life did not stop at the half-way post. He continued:

"It is a matter of congratulation that you have announced your candidacy, making your stand upon the achievements of Woodrow Wilson and his administration, because the people will now have an opportunity to square accounts in the voting for or against you whether they wish to hold up the hands of the President in Congress. He must have Congress, or he can accomplish little or nothing."

Enough to have convinced the voters of Senator Phelan's preference in the Senatorial fight, but evidently the junior Senator did not think so, for he proceeded to announce that he was making his stand upon the achievements of Woodrow Wilson and his administration, because the people will now have an opportunity to square accounts in the voting for or against you whether they wish to hold up the hands of the President in Congress. He must have Congress, or he can accomplish little or nothing."

Phelan telegraphed his thanks to Senator Johnson and stated that he would make the latter's indorsement his platform in the campaign.

So the die is cast.

IS LOGICAL.

The split of the Johnson-Phelan coalition will cause surprise in many quarters, but it is not surprising, because the consequences of Johnson's conduct have been figured, it will be accepted as entirely reasonable and logical.

Phelan is known to have depended upon Johnson to throw his support to Wilson in the November election. But when the Governor came out with his diluted statement of support for Hughes and his own hopes for candidacy for the Senatorship, organizing a faction in the Republican party in his own interests, there was nothing visible on which the political partnership could be maintained.

Hence Phelan's break with Johnson and indorsement of Patton.

England's War Cost Is Told to Commons

LONDON, July 20.—Explaining the increase in the government rate of expenditure to £2,000,000 daily, Reginald McKenna, chancellor of the exchequer, said in the House of Commons today that the figure related not only to war expenditures, but also to total outgoings.

The unforeseen and unforeseeable causes which had raised the rate of expenditure, added the chancellor, were mainly the rate at which American securities had been sold to the government for the purpose of regaining the American market and the rate at which advances made to allies and dominions of Great Britain were drawn upon. The concurrence of these two causes had led to the exhaustion of his borrowing powers earlier than was anticipated.

SIBLEYS ARE MISSED BY HEALTH MEN

Pastor, Wife and Child Paralysis Suspect, Escape Detention

Rev. Joseph Sibley, pastor of Cavalry Presbyterian Church, San Francisco, accompanied by his wife and their two-year-old daughter Lois, who is under suspicion as a carrier of infantile paralysis, were to have arrived this morning in San Francisco, and a group of inspectors of the State Board of Health was in waiting at the ferry station to meet the little party and place the child in quarantine. But the pastor and his family did not arrive, or at least the inspectors did not locate them in the tide of passengers, and it is believed that they left the train at Richmond, Berkeley or Oakland.

WATCH BOAT.

Word was received in San Francisco yesterday by Dr. W. C. Hassler, health officer, that the little girl had been discovered to be ill on the train when inspectors at the State board visited the passengers on a tour of investigation. As the Sibleys are returning from a visit of eight weeks on the Atlantic seaboard, it is possible that the child might have contracted the disease, and accordingly the warning was sent ahead.

The boat connecting with the Santa Fe limited arrived in San Francisco at 8 o'clock this morning, but the officials of the State Board of Health, who were waiting at the ferry station, looked in vain among the passengers who disembarked—the Sibleys were not there. Thinking that they might have missed them in the crowd, the inspectors hurried to Dr. Sibley's home, 3578 Jackson street. There was no one at the house. Later Dr. Hassler was informed that the pastor and his wife had left the train on this side of the bay, taking little Lois with them.

On the theory that the Sibleys have relatives or close friends in Oakland or the neighboring cities, Dr. Kirby Smith instructed several inspectors to work on the case, in an endeavor to locate the party. There is no certainty that the child is afflicted with the disease, but she might have been exposed in the infected district, say the health officers.

Dr. Sibley is returning from an eight weeks' vacation in the East, during which he visited Memphis, his former pastorate, and several cities on the Atlantic Coast, including New York.

Two young women, Miss Terisa Marso, 20 years old, and Miss Marie Mantonia, 19, here from New York, were met upon their arrival by San Leandro board of health officers, who are taking strict precautions against the possible spread of infantile paralysis. Dr. L. Michael, president of the

THOUSANDS TO SHOW PREPAREDNESS SPIRIT

Bay Cities Will Muster Great Army of Demonstration

(Continued From Page 1)

representation are being made by Fred W. Foss, Hugh Hogan and A. J. Lucas.

LAWYERS IN PARADE.

A considerable section will be represented by the state officials resident in San Francisco. The personnel of this section was announced yesterday as follows: Marshal, J. J. Dwyer, chairman of the Harbor Commission; assistants, Frank R. Devlin of the Railroad Commission, A. J. Pillsbury of the Industrial Accident Commission, Ernest Schaeffle of the Fish and Game Commission, W. R. Williams of the State Banking Department, C. E. Stern of the State Highway Commission, Thomas S. Williams of the Harbor Commission.

The women's division of the parade under the direction of Mrs. William Hinkley Taylor will absorb a portion of the Alameda county representation in the assignment of marchers. In this division will appear Miss Claire Rochester, a well known singer, who will impersonate the Goddess of Liberty. A silver flag, especially embroidered for the occasion, will be borne at the head of the division by Miss Louise Japin, while Miss Ethel Cox will carry the official emblem of the women's section.

More than five hundred physicians and surgeons will make up a delegation from their own. It is estimated that there will be about 500 physicians and 200 nurses in this delegation, captained by Dr. Walter B. Coffey, assisted by Dr. John Galtway, Dr. Harry Shuer, Dr. R. Walter, Dr. John Graves, Dr. H. G. McGettigan, Dr. Thomas Shurata, Dr. H. C. Dorr and Dr. Victor G. Veckel.

Thornwell Mullaly, grand marshal, announces that the following have accepted his invitation to act as aids: Leon Boqueron, Roger Boqueron, Horace B. Clinton, Thomas E. Eastland,

board, was satisfied that the young women were in good health and that there was no necessity to place them in quarantine.

They have come here from the East to make their home in San Leandro. Word that they were on their way was conveyed to the health officers by a telegram from E. G. James, health officer of Niland, Cal., who was notified by Washington.

MISTAKE IN MESSAGE.

Through a mistake in the telegram from Niland, it was thought the two persons from New York were young men, but the health officers, consisting of Dr. Michael, Marshal Joseph Peralta of San Leandro and Bud Eber, were not long in identifying the women as the persons mentioned by the Niland officer.

Minute inspection on trains and examination of all incoming passengers to California has been ordered by the State Board of Health, and a strict watch will be kept from now on in the fight to prevent an infantile paralysis epidemic in California. Special agents are now watching all entrants into the State. Dr. George Ebricht, president of the State Board of Health, is in active charge of the work.

"We always have some infantile paralysis," said Dr. Ebricht. "Often the cases are so mild that they escape observation. At the present time, when every one is looking for the disease, every case is being reported, but these are only the ordinary cases. They are endemic and not epidemic."

B. C. Ford, John Gallos, George S. Garrett, Livingston Jenks, Archibald Johnson, Samuel Knight, Harold W. Law, Knox Maddox, Elliott McAllister, Dr. Herbert T. Moore, Kenneth Moore, John Farrott Jr., William B. Sanborn, L. I. Scott, Warner H. Sherwood, William J. Tobin, T. C. Walker, St. John Whitney, Wilberforce Williams, Alexander Wilson, Francis Carolan, George Armsby, Edward Martin, Raymond Armsby, William A. Abbott, Robert L. Coleman Sr., Robert L. Coleman Jr., Harold Havens, Frederick Hussey, Leroy T. Ryone, A. Tubbs, Frederick Burnham, George Filmer, Francis V. Keessling, Harry J. Williams, Captain C. Vorhies, Frank H. Kerrigan, Leon Roos, Jesse Lillenthal Jr.

FORMATION.

In general orders issued today for the guidance of marshals and aides, Mullaly gave the following instructions as to the manner in which the various divisions in the gigantic line of march will be handled without confusion:

In the rear line of each division there will be carried a white flag, with a red cross in the center, which flag each marshal will obtain for his division headquarters.

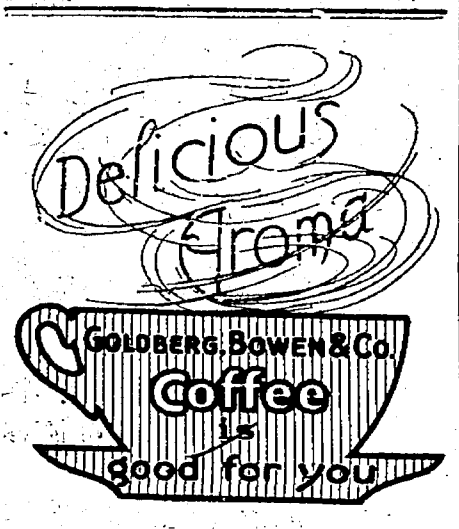

Particular attention is called to this, as its purpose will be to designate the rear of each division, and thus serve as a signal to the division which is to follow it, thus enabling each marshal to know the exact time to swing his division into the column of the parade.

When the firing of a bomb and the blowing of the siren on the Exposition Auditorium will be the signal that the head of the parade has started.

Under the head of the parade reaches the official reviewing stand a second bomb square in which the bomb is to follow it, thus enabling each marshal to know the exact time to swing his division into the column of the parade.

SIGNALS.

The grand marshal will handle the parade by means of a signal telephone block system. Telephone stations will be established about every two blocks along the line of march, on platforms. Reports of the delays will be telephoned along the line, and also when any breaks are closed. A white flag extended from the platform will be the signal to the grand marshal and to the division marshals to continue marching without halting; a

DEUTSCHLAND ALL READY FOR DASH

Bremen Expected Here Friday; Scoff at Fear of Death.

BALTIMORE, Md., July 20.—At dawn today a screen of tugs and barges was drawn about the submarine merchantman Deutschland, indicating that she would not leave here for several hours at least. To appearances, she was ready to start on her dash to Germany last night. This morning, just before she was hidden from view, it was observed that she was submerged to about the same depth as when she came in this port with a full cargo.

Yesterday a force of mechanics was sent aboard the submarine to help the crew's mechanics to overhaul the machinery. One of the engines was dismounted and hurried in an automobile to a local shop for re-fitting.

Captain Hinch, transportation master for the new freighters, is whispering to his friends that the Bremen will dock here this way—and everything points that way—due to the departure of the Deutschland either simultaneously or earlier. Members of the crew scoffed at published reports that they feared death on the return journey through capture in allied submarine nets.

To Theater 3 Times in 6 Years; Divorce

That her husband only took her to the theater three times in six years, and only brought her to dress during the whole of their married life is the declaration of Mrs. Rose Nicolai, in a complaint for divorce today against her husband, Fred Nicolai. She is Irish and he Italian, she further alleges, and he is according to the complaint, in the habit of addressing her as "an Irish slob."

All of which, she complains, has caused her great mental anguish, and, therefore, is to be classed as cruelty in her action in the superior court. Nicolai is a laborer.

Myrtle Goldhorpe today filed suit for divorce from Charles Leroy Goldhorpe, alleging that he was a drunkard, a gambler and a womanizer. Louisa Perati filed suit for divorce from Bonchey Perati, charging him with the use of drugs and narcotics, and demanding a share of the community property. Perati is owner of a local junk shop.

WOMEN TO TAKE PART

Many of the most prominent matrons and girls of society, and leading clubwomen will be among the women who are to represent Alameda county in the great parade. Mrs. George L. Rogers, president of the local chapter of the Order of the Eastern Star, is at the head of the parade. Mrs. George L. Rogers, president of the local chapter of the Order of the Eastern Star, is at the head of the parade. Mrs. George L. Rogers, president of the local chapter of the Order of the Eastern Star, is at the head of the parade.

It has been requested by Mrs. Rothman that women wishing to bring in companies or to participate in the demonstration by marching, notify her at once so that they may be arranged for in the formation of Saturday. The headquarters are now established, and on sale there at the cost price will be the white hats that the woman have been urged to wear and the flags each is to carry.

POLICE TO MARCH

A platoon of police from the Oakland department will head the Oakland contingent in the Preparedness parade, Commissioner Jackson, Public Health and Safety F. F. Jackson announced today.

Dr. Jackson was asked to provide an escort of police, and today gave instructions that sixteen men should be detailed with the necessary officers to head the parade. The request was made by Grand Marshal Harry G. Williams, and included an invitation to Commissioner Jackson to participate in the parade. The invitation was accepted.

MANY FROM RICHMOND

RICHMOND, July 20.—A largely attended meeting was held in the Ellis building last evening to outline plans for Richmond's participation in the Preparedness parade in San Francisco next Saturday. The meeting was held in the Ellis building last evening to outline plans for Richmond's participation in the Preparedness parade in San Francisco next Saturday. The meeting was held in the Ellis building last evening to outline plans for Richmond's participation in the Preparedness parade in San Francisco next Saturday.

Cecil Says Censorship Necessary War Measure

LONDON, July 20.—Lord Robert Cecil, minister of war trade, declared in the House of Commons today that he did not think there was any reason to suppose the censorship now exercised regarding press messages to the United States was at all likely to interfere with the continuation of friendly relations of the two countries.

The censorship, added Lord Robert, was established for military reasons, and its abolition or modification could not be advocated upon non-military grounds.

A member had advocated abolition of the censorship to show England's confidence in the United States.

31 Children Latest N. Y. Epidemic Toll

NEW YORK, July 20.—On only one day since the inception of the epidemic of infantile paralysis on June 26 have more fatalities from the disease occurred than in the last twenty-four hours. During this period the plague killed thirty-one children and there were 119 new cases reported in the five boroughs of New York City.

The latest figures show that the mortality rate is slightly less than 20 per cent. Since the beginning of the epidemic there have been 487 deaths and 2446 cases.

BULLET'S VICTIM FIGHTS FOR LIFE

Triangle Love Tangle Waits on Autopsy and Police Reports.

BOSTON, July 20.—Physicians attending Dr. Wilfred E. Harris, president of the Massachusetts College of Osteopathy, said today that he had a "fighting chance" to recover from the three bullet wounds inflicted Tuesday by Dr. Eldridge D. Atwood, also an osteopath. The police are endeavoring to clear up the mystery of the death by poisoning of Dr. Celia Adams, Dr. Atwood's fiancée, a few hours before the shooting of Dr. Harris.

Dr. Atwood told the police he left Miss Adams about 11 o'clock Monday night and that he first learned the next morning that she had been found unconscious in her office. It was said today by the police that she was said today by the police that she had made several attempts to speak to a physician, who asked her if she had taken poison. She did not reply, but nodded her head. An analysis of the young woman's organs is being made to determine the nature of the poison that caused her death.

Dr. Atwood is in jail on a charge of intent to kill.

Stylish "She" Enters Jap Army

Old Custom of Nippon Is Recorded

TOKIO, July 20.—The army conscription examiners in session at a town in the interior were astounded recently when a young Japanese woman dressed fashionably and carrying a parasol walked into the office and requested examination for military service. When the applicant explained that "she" was a man and not a woman, the examiners recalled an old Japanese custom of concealing sex, a custom which, as it afterward appeared, the applicant was following.

Old-time tradition held that a physically weak boy should be brought up as a girl, from the belief that the child would thus escape the curse of death. The boy was attired in female costume and his hair was allowed to grow long like a girl's. Yasukichi, the son of Kinzo Mishikawa, the army applicant, was brought up under this tradition, which is followed now only in remote districts. He learned to sew and to cook. He entered a cotton mill at Osaka and worked as a female operative. No one suspected his real sex.

The examiners found the young man in perfect physical condition, and he has entered the army in man's clothes.

PREDICT ATTACK ON TRADE OF U. S.

Foreign Trade Council Says Fight Will Start at War's Close.

WASHINGTON, July 20.—A general European attack upon America's unprecedented gold reserve and foreign trade at the close of the war is predicted, in a statement submitted to the House judiciary committee today by the National Foreign Trade Council, urging passage of the Webb bill to permit American commissions in the export trade.

Pointing out that the present enormous export business is due largely to an abnormal war demand, the council says the liberty to co-operate which rivals and customers of American firms have enjoyed has produced highly-organized selling agencies and that the United States cannot hold its position in the world of business if European industrial and government co-operation versus American compelled competition is to continue.

YEOMEN ANNUAL MEETING.
RICHMOND, July 20.—A very important meeting of the local branch of the Brotherhood of American Yeomen is scheduled for this evening at Pyralis Castle, when the annual open meeting takes place.

HEYER SAYS INFIRMARY IS IN DANGER

Supervisors Order Wiring to Be Repaired at Once

That the old buildings at the county infirmary, housing several hundred aged and infirm men and women, are in jeopardy, owing to defective and improper electrical wiring was a matter called to the attention of the Supervisors today by Supervisor Charles Heyer, who pointed out that the members of the board should feel personally responsible for conditions at the institution.

The Supervisors, meeting as a committee, authorized the draft of a resolution providing that the wiring be repaired. The cost, Supervisor Heyer said, has been estimated at \$285, but that it might run higher.

The committee also authorized that steps be taken toward obtaining plans for the construction of an addition to the hospital building to house twenty extra beds and for a new building for housing contagious cases.

ALBANY WANTS PAVING. That the town of Albany is ready and willing to call an election for a bond issue approximately \$15,000 in order to do its share in improving San Pablo avenue through the town limits, was stated to the committee by Attorney Leon A. Clark and Town Trustee Dean. It was asked that the Supervisors adopt a resolution providing for paying an eighteen-

Austrians Quit Guns; Toss Rocks Three Italian Attacks Are Defeated

BERLIN, July 20. — Hurling stones down the mountain sides the Austrians repulsed three strong Italian attacks near Borcia Pass, the official statement issued yesterday at Vienna reports. The announcement follows:

"After heavy artillery preparation, strong Italian forces attacked three times our positions south and east of Borcia Pass. They were repulsed with hand grenades, machine guns and avalanches of stones."

San Pablo avenue would then be paved from Oakland through to the Contra Costa county line beyond which improvements are being made by the City of Richmond and the state highway commission.

TO PRINT FINANCIAL REPORT. The members of the committee, all of whom were present at today's meeting, agreed that the financial report of the county as prepared by Auditor E. P. Garrison be printed in pamphlet form this year. The Tax Association requested that the report be printed largely as an advertising medium to show by facts and figures what the operating expenses of the county are and where the increases and savings are made so that the taxpayers may see at a glance what they are paying for.

The local letter carriers were granted the sum of \$350 from the advertising fund to pay the expenses of taking their band to San Luis Obispo in attendance at the state convention of the National Letter Carriers' Association. Members of the delegation that waited on the committee stated that Alameda county advertising literature would be freely circulated at the convention.

PEACE DEMANDED OF HUN PARTY

Berlin Reports Differently, Saying New Group Is for War.

BERLIN, July 20. — Count Karolyi, member of the Hungarian lower house of parliament, had been made president of a new independent party. In his opening speech, according to the Overseas News Agency, he said:

"In order to avoid misunderstandings it was necessary to emphasize the fact that there are no differences of opinion in Hungary as to our sole duty, which is to defend the country without discussing reasons, inasmuch as it was attacked by the enemy."

It was reported from Budapest on July 18 that Count Karolyi had resigned the presidency of the Hungarian independent party and would form a new party which would demand immediate peace between Hungary and its enemies, with or without the consent of Germany and Austria.

Says Police Chief Slandered Her; Sues

SAN DIEGO, July 20. — Charging Chief of Police J. H. Wilson with making false and malicious statements against her, Mrs. Florence Gilson, former police matron, today filed a suit in the Superior Court in which she asks damages in the amount of \$10,000.

Mrs. Gilson, in the complaint filed today, charges Chief Wilson with saying that he had personally seen her standing at the bar in a saloon and that he at the time gave interviews to newspapers in which he repeated the statement that there was any truth in the statement is denied by Mrs. Gilson.

PRISON PROBES CONSULT JACKSON

Women Prisoners Will Be Given Use of Sewing Machines.

Mrs. Elizabeth Rounsavell, head of the committee on jail investigation for the Oakland center of the California Civic League, called upon Commissioner F. F. Jackson today to discuss the findings of her committee. The committee yesterday visited the city prison to make a study of conditions with regard to the women prisoners.

Sewing machines for the women prisoners, which will give them an opportunity of doing some plain dressmaking and sewing while incarcerated, will probably be installed in the women's quarters as a result of the investigation by the women's committee. The sewing machines will be placed in the jail without expense to the city.

Mrs. Rounsavell asked concerning the isolation of women afflicted with contagious diseases, and was informed that they were separated from other inmates, were restricted to the use of baths, washstands and other conveniences not used by other women, and received medical care from the health officer.

Dr. Jackson was also asked concerning the possibility of having the women exercised, and was informed that they were permitted to exercise on the roof of the City Hall during certain hours of the day.

The propriety of the custom of having police officers search women prisoners when they are brought to the jail was called in question and it was explained that there is always a matron present. It was stated that an officer is needed as some of the women are unruly when they are arrested.

Infirmary Inmates Steal County Blankets

With the bright summer days the road has its lure for many of the inmates of the emergency hospital. Wherefore many are disappearing, to become knights of the road for a time—and when they are disappearing many of the county's blankets.

A watch was placed over the hospital today by constables in an effort to put a stop to the wholesale disappearance of the hospital's property. Several men were stopped when leaving the hospital with blankets, according to the superintendent, Dr. C. A. Willis.

"When the summer comes a certain proportion of our inmates always seek the road and turn hobo," declared Willis. "They take out their blankets before they leave and cache them along the fence somewhere. When they are ready to leave, they grab them en route, usually early in the morning, and are far away before we know they are gone."

Arrests are threatened in future if any more inmates are found with county blankets in their possession.

Big Russian Loan Negotiated by Banker

STOCKHOLM, July 20. — After spending two months in Russia, during which time he arranged a loan of \$50,000,000 to the Russian government and also provided for the establishment of branch banks, Samuel McRoberts, senior vice-president of the National City Bank in New York, sailed today for New York on board the steamer Bergensford.

McRoberts made a careful study of conditions in Russia. "The war," he said, "has awakened Russia beyond all conception, and that country now offers a wonderful opportunity to American capital and business enterprises."

"I traveled for three days through territory as fertile as the best parts of Iowa and Illinois. The greatest opportunity lies in the establishment of branch factories in Russia."

Army Officers Are Retired for Riot

SALONKI, July 20. — A royal decree was published here today retiring the Greek army officers who were implicated in the wrecking of the offices of the newspaper Rizoastis and the mortal wounding of its editor. The newspaper was said to have published articles reflecting on the Greek army in connection with the surrender of Greek fortresses to the Bulgarians.

A Paris despatch, dated July 3, stated that eleven Greek army officers had been arrested by the French military authorities at Salonki, following an attack on the offices of the Rizoastis and the wounding of the editor. The newspaper was said to have published articles reflecting on the Greek army in connection with the surrender of Greek fortresses to the Bulgarians.

The newspaper was said to have published articles reflecting on the Greek army in connection with the surrender of Greek fortresses to the Bulgarians.

Recover Aeroplane Lost in Mexico

WASHINGTON, July 20. — An aeroplane abandoned west of Tuba, July 14, has been recovered, General Pershing has advised the War Department. The aviators were compelled to land because of the failure to turn on the gasoline from the reserve tank before starting.

General Gonzales and staff, with an escort of 100 men, passed south at 10 o'clock last night, en route to Madero, General Pershing said. Gonzales said he was going to visit the Hearst ranch west of Madero and investigate the complaint regarding the seizure of the property.

Re-elect Salt Lake Man Opticians' Head

PROVIDENCE, R. I., July 20. — Frank J. Alexander of Salt Lake City was re-elected president of the American Optical Association at its 19th annual convention here today.

'Stay at Home,' Warns Court Frey Decides That He Will

SAN FRANCISCO, July 20. — Albert Frey, 17, 8, Parkway street, 1911 Polk street, Oakland, left Police Judge Sullivan's court room this morning accompanied by his wife after he had declared openly his opinion that home was the best place after all, after he had been warned to stay closely by the family friends.

The complaint charging grand larceny was dismissed. Mrs. Frances Smith Hall, who accused Frey of hypothecating \$500 in money and jewelry while acting in the capacity of an admirer, was also the subject of a lecture by the court following her admission that she did not know her own name.

"My name has been changed so much by the court I don't know for sure whether it is Smith or Hall, Jenkins or Jones," she said in response to a question.

JOHNSON' SENATE PETITION FILED

Governor Files Signatures for Progressive and Republican Nomination.

SACRAMENTO, July 20. — Governor Johnson qualified today to make the race the Republican nomination for senator by filing petitions with the secretary of state containing 1684 signatures. This was 129 more signatures than the required number. His campaign headquarters say other Republican petitions will be filed this week, bringing the total number of Republican signatures up to the maximum, 2283. The petitions filed today are from Alameda county and San Francisco, the former having 821 signatures and the latter 863.

He has now qualified both for the Progressive and Republican tickets. C. H. Randall, congressman from the Ninth District, Los Angeles, who was elected as a Prohibitionist, filed petitions today to put his name on the Prohibition, Republican, Democratic and Progressive tickets at the primary election.

Health Board Member Speaker at University

BERKELEY, July 20. — The social and economic aspects of tuberculosis and the possibilities of co-operative agencies for the world wide campaign against the white plague was the subject of an address by Miss Edith L. M. Tate, director of the bureau of tuberculosis, before the summer session students of the University of California today at the Hygiene and pathology building. "She will speak there again tomorrow at 11 o'clock."

Rumanians Go Home Through Bulgaria

BERLIN, July 20. — The Vossische Zeitung says that after the demobilization of the Greek army the Bulgarian government permitted 1000 Greek reservists to cross Bulgarian territory for the purpose of returning to Rumania.

COMPANY PAYS DIVIDEND

LONDON, July 20. — The German-American Petroleum Company, the German branch of the Standard Oil Company, announces it has overcome the British blockade effectively enough to pay a 20 per cent dividend as against 22 1/2 per cent in 1914-1915.

GERMANS BOMBARD HOSPITAL

LONDON, July 20. — A Petrograd despatch to the Exchange Telegraph says that the Empress Marie Jekobovna hospital on the Dvinsk front was bombed by German aviators. Forty bombs were thrown on the building and several of the inmates killed.

Columbia August Records Sale

Songs on the Top Wave of Popularity

THRILLING patriotic ensembles like "Young America—We're Strong For You" and "We'll Never Let the Old Flag Fall"; hits that are hits, like Al Jolson's singing of "I Sent My Wife to the Thousand Isles"; and comic and sentimental song-successes like "I've Got a Sweet Tooth Bothering Me" from Lew Fields' latest show "Step This Way" and "Songs We Used to Sing in Dixieland," a Remick song-germ that is sweeping the country. Music of a very different sort is Casals' marvelous handling of the 'cello in Saint-Saens' "Allegro Appassionato" and Haydn's "Minuet in C Major."

Also in the August List

Kathleen Parlow's inspired playing of two brilliant violin compositions by Kreisler and Svendsen, Graveure's inspired rendering of two beautiful old-time hymns and Rother's great basso in the immortal anthem "La Marseillaise," rank quite as high in artistic interest. As examples of another side of the month's list, here are

Four Popular Records You Should Hear

A 2025 HURRY BACK TO MY BAMBOO SHACK. Henry Burr, Tenor. 75c. SAMOA (Some More). Campbell and Burr, Tenor Duet.

A 2015 Gwine to Run All Night. H.C. Browne, baritone. Banjo and orch. acc. 75c. ROLL OUT, HEAVE DAT COTTON. H.C. Browne, baritone. Banjo and orch. acc.

A 1992 SWEET IS TIPPERARY. Mary O'Rourke, Soprano. 75c. MA LITTLE CURLY HEADED BABY. Mary O'Rourke, Soprano.

A 2019 MY GRANDFATHER'S GIRL. Peerless Quartette. 75c. THROUGH THESE WONDERFUL GLASSES OF MINE. Campbell and Burr, Tenor Duet.

Music of Universal Interest

Varied and charming is the balance of the list: eight rhythmic dances; the Tartar Ballet from "Prince Igor," (a veritable orchestral triumph); violin gems, banjo solos, instrumental trios; vocal choruses, quartets and solos; novelties on the harp, gypsy cimbalom and Hawaiian guitar. Two Shakespearean orations add further novelty to this extensive and entertaining list—a list that you'll enjoy hearing at your dealer's.

FEATURES PLANNED FOR CELEBRATION

"Try Oakland First" Week Will Be Busy One for Merchants.

Plans will be outlined next week at meetings to be held under the direction of the "Try Oakland First" Week Committee, a series of special events, under the auspices of the Chamber of Commerce, will plan a special factory demonstration, under the direction of John W. Phillips. The merchants of Oakland will make a plan for the patronizing of home amusements, this to be in charge of Captain Harry R. Cornell. Irving Kahn and several others will be in charge of the Oakland merchant's participation in the celebration, and a wholesaler's division will also be arranged.

The merchants will be asked by the general staff to join in a special demonstration in which a uniform shop window display, each store carrying out the basic idea, "Try Oakland First," will be installed for the celebration. Public lectures and entertainments at which the people will be shown Oakland's goods and products, the big "Home Products" exhibit and other features are under way in connection with the movement. Co-operative advertising, to urge home industry on the people of Oakland, is also to be a part of the celebration.

"This is not a move," declared General Chairman John W. Phillips, "to oppose the people buying goods from any other city, but just a plan to place our goods before the people in case they prefer to buy at home—a sort of direct advertisement in which we will show the people of this city that they can buy here as well and cheaply as in any other city. We will not directly ask that they do this, or seek to have them withdraw their custom from anyone else. It is just as legitimate as advertising—for it is nothing more or less than community advertising."

The general staff will meet Wednesday night to inspect the details for the program.

Legal learning does not make a good painter. Wherefore District Attorney W. H. L. Hynes and Superior Judge William S. Wells are wearing other suits than those they came to court in this morning, and two tailors have stiff jobs on their hands in removing paint from two suits of clothes in which the judge and district attorney appeared when today was yet young.

Painters are at work in the district attorney's offices in the courthouse, removing the paint, and Hynes and Judge Wells decided to supervise the job. Hynes had a particular way he thought the office should be painted, and Judge Wells knew of a neat way of removing off the job. They demonstrated.

Both emerged from the job liberally adorned with paint, tired, but triumphant. "They had done a creditable job—for the former-painter himself said so, and they showed it. Then they bled them to the cleaners."

MEXICAN DISPUTE UP TO COMMISSION

Washington Waits Word of Joint Appointment by Wil- son and Carranza

WASHINGTON, July 20. — Announcement that the settlement of the differences between the United States and Mexico will be made through a joint commission is looked for in the immediate future.

Only final approval by President Wilson and General Carranza is needed, it was said today.

Powers to be conferred on a commis-
 sion, if one is agreed on, have formed
 one of the chief points of discussion in
 preliminary negotiations between Acting
 Secretary of State Polk and Eliseo Ar-
 rondo, Mexican ambassador designate.
 Henry P. Fletcher, American ambas-
 ador designate to Mexico, will go to his
 post in Mexico City soon after August 1,
 if the situation continues to clear, it was
 understood today.

Student of Mexico Discusses Peace

"Peace or War—Which Is the Normal State of Society?"

This is the question to which Rosecoe R. Hill, professor of history in the University of California at Berkeley, the foremost students of Mexican affairs. In the United States, pointed out its members of the Rotary Club today, when he appeared as the speaker of the day at their noon luncheon in the Hotel Oakland.

He discussed nationalism and internationalism, in which he saw hope of lasting peace. Friction between two nations usually arises from a mutual lack of understanding, and he applied this rule particularly in the Mexican case, now before America. Nations and races, he pointed out, are not different from individuals.

The club's participation in the preparedness parade in San Francisco was also discussed today at the luncheon when a large number of members promised to march in Oakland's division in the entertainment.

FALLS FROM CHIMNEY.
SAN FRANCISCO, July 20.—James B. Watson, pilot on the steamer Kilborn, lost his life Sunday morning when he tumbled down the smoke funnel a distance of forty feet. He was treated at the Harbor Emergency Hospital for a fracture of the right arm, lacerations and contusions of the face and body. Watson was painting the Kilborn's smokestack. He attempted to seat himself more comfortably upon the funnel's rim and slipped.

RICHMOND, July 29.—Registration of those entitled to vote in the coming election for the creating of a board of freeholders to frame a new charter, shows that there are 5325 voters within the city limits.

TO PREVENT SLIP-UPS

TO PREVENT OLD AGE
COMING TOO SOON!

"Toxic poisons in the blood are thrown out by the kidneys. The kidneys act as filters for such products. If we wish to prevent old age coming too soon and increase our chances for a long life, we should drink plenty of pure water and take a little 'Auric'."

When suffering from backache, frequent or scanty urinals, rheumatic pains here or there, or that constant, worn-out feeling, the simple way to overcome these disorders is merely to obtain a little "Anuric" from your nearest drug store.

nearest druggist and you will quickly notice the grand results. You will find it thirty-seven times more potent than lithia, and that it dissolves uric acid as hot water does sugar.—Advertisement.

STRIKERS RETURN TO DOCK JOBS

Big Waterfront Walkout Thought Ended; Men Compromise

SAN FRANCISCO, July 20.—San Francisco longshoremen went back to work today, practically in defiance of the International Longshoremen's Association, the local union, independent of any orders, taking it upon itself to plan a compromise. How long the men will remain at work no one can surmise. President J. J. Foley declares that the union cannot make any abiding decision, but must stand by the action of the stevedores of the coast as a whole. This might call them out again.

In the meantime the bay and river steamer men have gone out on a new strike, after having returned once only to quarrel with the longshoremen. The union of certain non-union men on the boats.

A third complication is in the declaration of Acting United States District Attorney M. A. Thomas, who claims that after the strike federal prosecution will be brought against certain strikers said to have interfered with interstate commerce.

The outstanding developments in the strike situation today are:

A committee of twenty-five of the riggers and stevedores voted to separate from the international union and return to work. The men returned this morning.

OBJECT TO OPEN SHOP.

The bay and river steamer men are out again as the result of a quarrel over non-union men to be retained. The disagreement was with the Chamber of Commerce committee. In other words, they object to the open shop being operated on the "open shop" principle.

The longshoremen return to work under the same conditions that existed when they were under obligation to work. This will go into effect August 1, or if not completed then, will be paid as having been operative since that date.

"GOOD," SAYS EMPLOYER.

Captain J. H. Bennett, president of the Waterfront Employers' Association, said last night that he had received no official information regarding the decision of the longshoremen to return to work. When told that it was official, he said: "Good! I am glad to hear it. The employers have made their terms, and if the union men want to come back on that basis we shall be glad to have them. I expect the employers will put them to work as fast as they can be used. That is all there is to the question from the employers' side."

While the longshoremen have been authorized by the union to return to work, it is understood the lumber handlers will remain out.

The new difficulty between the bay and river steamer men and their employers have been put up to President Frederick J. Koster of the Chamber of Commerce and chairman of the law and order committee. If any further negotiations are to be taken up President Anderson of the Steamboat Owners' Association says they will have to come through Koster.

Captain Anderson, president of the Steamboat Owners' Association, said that a demand was made on him yesterday morning by Delegate Comstock of the union that the non-union crews on the Modoc and the Pride of the River be discharged. He refused to comply and the new trouble was precipitated.

Monterey Echoes to Boom of Gunfire Citizen Soldiers Are on Rifle Range General Sibert Praises Idea of Camp

By C. H. BAILY.

UNITED STATES MILITARY TRAINING CAMP, MONTEREY, July 20.—The Presidio of Monterey sounds like a European battlefield today, for the civilian recruits of the first battalion of the Provisional Training Regiment are on the target range, and some of them are making a fine showing, seeing that it is the first official tryout for a big proportion of the initial work of the service rifle. The first battalion is composed of Companies A, B, C and D, and contains a large number of Alameda county men.

Slow fire at 200 yards, the men firing five shots kneeling and prone, ten rounds rapid fire kneeling or sitting, and 500 yards slow fire for five rounds, comprises the program on the range for the battalion, which took its lunch to the range and remained there all day. The second and third battalions are going through company drills today and learning the principles of outpost duty. They get their lunch to the rifle range tomorrow and Monday.

LAKES CAMP IDEA.

The address of Brigadier-General William L. Sibert, U. S. A., camp commander, late yesterday afternoon, has aroused much enthusiasm among the camp recruits. The general, strongly endorsing the camp idea, intimated that upon its success largely depends the question of whether or not the United States will be obliged to adopt universal military service. In part, the general said:

"I am a great believer in the ultimate outcome of the military training camp. It affords a most practical way for the man whose duty it is to permit him to enter the regular army or the national guard to prepare himself for the performance of one of his most sacred duties, and that without any loss of his business. I hope that at no distant date to see at least 200,000 men in camp in this country each year. I hope to see them great democratic camps, in which men from all walks of life, men who will serve as privates and non-commissioned officers, as well as men who are serving for commissions in the Reserve Officers' Corps.

"These camps should reach every grade of citizen. They will create loyalty; they will probably be located as to the service rifle boys after the crops are laid by. I hope to see the great labor world participate in these camps.

"We need in the United States a national feeling. There should be some question on which the people are not divided politically or by wealth, education or occupation, and among such questions is that of the common duty of defending the nation and preserving its institutions.

ALL CAN PREPARE.

"If this country wants to prepare itself it can do so through the regular army, the national guard and the military training camp. Every man, under the new law, can find a way to prepare himself for service if he wants to. However, the entire fabric of the law is based on the volunteer principle, and if the law fails to accomplish its purpose, which failure will be an unanswerable argument for universal service, and its failure is probably the only argument that would bring about such service.

"The camp recruits from Oakland, Alameda, and Berkeley already are making tentative plans for organizing this fall for the purpose of carrying on a winter course in military training, the men being at least for the week in Oakland and drilling and listening to talks by regular army officers. There is so much deep enthusiasm over the work here among the men that they cannot stand to be away from the camp for more than a few days.

WASHINGTON, July 20.—President Wilson today received a request from Henry Morgenthau, former ambassador to Turkey, Cleveland H. Dodge, A. Barton Hepburn and several other New York men asking that the government intervene in the cloakmakers' strike, which has been in progress in New York City for twelve weeks.

The petition was made on the ground that the strike threatened the separation of the women's clothing of the whole nation. The president probably will forward the request to the Department of Labor, with instructions that the bureau of conciliation make efforts to end the strike.

The president referred the petition to the Departments of Labor and Commerce with the request that immediate action be taken. The Bureau of Conciliation probably will undertake negotiations for settlement of the strike.

Dock Union Men to Face Federal Court

PORTLAND, Ore., July 20.—Representatives of the Pacific Coast district, International Longshoremen's Association, must appear Monday before Federal Judge Wolcott to show cause why his injunction restraining them from interfering with the San Francisco and Portland Steamship Company should not be made permanent.

The injunction forbids the strikers from picketing, trespassing on the company's property, intimidating employees and hindering the business of the corporation.

President J. D. Farrell of the company swore his concern had already suffered damages from the strike and asserted he feared bloodshed would result if the restraining order was not signed.

BALTIMORE, July 20.—Dr. William Simon, professor of chemistry at the College of Physicians and Surgeons, and an adept in autographic photography, died yesterday at Eaglesmere, Pa. Death was due to a complication of diseases. Dr. Simon had the distinction of having taken a photograph of a rainbow, probably the only one ever taken. Dr. Simon was born in Germany in 1844.

CHICAGO, July 20.—William R. Patterson, director of the Western Electric Co., and senior partner of Patterson & Davidson, consulting engineers, died here yesterday. He was born in Edinburgh, N. H., in 1854, and had been a resident of Chicago for the past 32 years. Patterson

took out 83 patents during his lifetime. The principal invention was the style of lead-covered cable, both underground and aerial, which are now in general use for telephone purposes all over the world. He leaves a widow, Mrs. Ida L. Patterson, Elks, of which Campbell was a member. He was also a member of Alcatraz Parlor, Native Sons of the Golden West, and of Occidental Lodge of Masons.

The Campbell family were prominent in San Francisco and Alameda county affairs, the father having been a pioneer across the bay, where the deceased was born 51 years ago. Campbell lived at 72 Santa Clara avenue. He died late yesterday afternoon at East Bay Sanatorium.

each year. I hope to see them great democratic camps, in which men from all walks of life, men who will serve as privates and non-commissioned officers, as well as men who are serving for commissions in the Reserve Officers' Corps.

"These camps should reach every grade of citizen. They will create loyalty; they will probably be located as to the service rifle boys after the crops are laid by. I hope to see the great labor world participate in these camps.

"We need in the United States a national feeling. There should be some question on which the people are not divided politically or by wealth, education or occupation, and among such questions is that of the common duty of defending the nation and preserving its institutions.

ALL CAN PREPARE.

"If this country wants to prepare itself it can do so through the regular army, the national guard and the military training camp. Every man, under the new law, can find a way to prepare himself for service if he wants to. However, the entire fabric of the law is based on the volunteer principle, and if the law fails to accomplish its purpose, which failure will be an unanswerable argument for universal service, and its failure is probably the only argument that would bring about such service.

"The camp recruits from Oakland, Alameda, and Berkeley already are making tentative plans for organizing this fall for the purpose of carrying on a winter course in military training, the men being at least for the week in Oakland and drilling and listening to talks by regular army officers. There is so much deep enthusiasm over the work here among the men that they cannot stand to be away from the camp for more than a few days.

WASHINGTON, July 20.—President Wilson today received a request from Henry Morgenthau, former ambassador to Turkey, Cleveland H. Dodge, A. Barton Hepburn and several other New York men asking that the government intervene in the cloakmakers' strike, which has been in progress in New York City for twelve weeks.

The petition was made on the ground that the strike threatened the separation of the women's clothing of the whole nation. The president probably will forward the request to the Department of Labor, with instructions that the bureau of conciliation make efforts to end the strike.

The president referred the petition to the Departments of Labor and Commerce with the request that immediate action be taken. The Bureau of Conciliation probably will undertake negotiations for settlement of the strike.

Dock Union Men to Face Federal Court

PORTLAND, Ore., July 20.—Representatives of the Pacific Coast district, International Longshoremen's Association, must appear Monday before Federal Judge Wolcott to show cause why his injunction restraining them from interfering with the San Francisco and Portland Steamship Company should not be made permanent.

The injunction forbids the strikers from picketing, trespassing on the company's property, intimidating employees and hindering the business of the corporation.

President J. D. Farrell of the company swore his concern had already suffered damages from the strike and asserted he feared bloodshed would result if the restraining order was not signed.

BALTIMORE, July 20.—Dr. William Simon, professor of chemistry at the College of Physicians and Surgeons, and an adept in autographic photography, died yesterday at Eaglesmere, Pa. Death was due to a complication of diseases. Dr. Simon had the distinction of having taken a photograph of a rainbow, probably the only one ever taken. Dr. Simon was born in Germany in 1844.

CHICAGO, July 20.—William R. Patterson, director of the Western Electric Co., and senior partner of Patterson & Davidson, consulting engineers, died here yesterday. He was born in Edinburgh, N. H., in 1854, and had been a resident of Chicago for the past 32 years. Patterson

took out 83 patents during his lifetime. The principal invention was the style of lead-covered cable, both underground and aerial, which are now in general use for telephone purposes all over the world. He leaves a widow, Mrs. Ida L. Patterson, Elks, of which Campbell was a member. He was also a member of Alcatraz Parlor, Native Sons of the Golden West, and of Occidental Lodge of Masons.

The Campbell family were prominent in San Francisco and Alameda county affairs, the father having been a pioneer across the bay, where the deceased was born 51 years ago. Campbell lived at 72 Santa Clara avenue. He died late yesterday afternoon at East Bay Sanatorium.

25 PHONES FOR SUMMER CAPITOL

Wilson to Take McCall Place at Long Branch This Season.

LONG BEACH, N. J., July 20.—President Wilson will arrive here soon to occupy the summer capital, "Shadow Lawn," and receive formal notification of his nomination. His return to this heretofore unlucky mansion should be lucky for his lucky number is still working, for this is the thirtieth year since the magnificent place built by the late John A. McCall of the New York Life Insurance Company, in 1886, was opened.

Only misfortune followed the three persons who have previously lived here. McCall, who spared no expense and who is credited with having spent a million dollars on "Shadow Lawn" and its grounds, died here, and was followed with over fifty thousand dollars worth of shrubbery and trees, and containing an artificial lake and a fifty thousand dollar stable and garage, spent only one season in the big white building on the hill before a trouble came thick upon him.

Joseph White, the Texas postage stamp millionaire, who founded his fortune on a bid for bonds in the second Cleveland administration, made it his home for several years before his financial collapse.

J. B. Greenhut, the New York merchant prince, who next purchased it, last year became a bankrupt. But the superstitious say the rule of three having been followed to the end, the hoodoo now is broken. Being "13" in president Wilson's lucky number, he says.

The hopes of Long Beach and its wealthy summer colony have long centered in the place being the Summer White House. It has been regarded as almost too pretentious and dignified for a mere private residence.

Shadow Lawn today is a Mecca for motorists, and is visited by hundreds of sight-seers daily. From the upper stories may be seen the summer homes of the Presidents Grant and Garfield on the ocean, less than a mile away. An idea of the size of the building may be gained from the fact that twenty-five telephones have been installed for the convenience of the President's household.

Last month James Smith Jr., made the suggestion that it was ideally located for the President's headquarters in a national campaign.

Credit for bringing the summer White House to Long Beach is particularly due to the New Jerseyites, E. B. Bobbit, State Editor and Editor of the Long Beach Record; Dr. George H. Baker, Richard H. Deever, Myron T. Oppenheim, Dr. Joseph T. Welch, Senator John W. Slom, Editor James Kearny of the Times, Representative Thomas J. Scully, Appeals Court Judge Henry S. Terhune, Senator Henry E. Ackerson Jr., Public Utility Commissioner J. Lyon Kimbrough, Editor of the Asbury Park Press, and Charles F. McDonald.

Cars Are Held for Army, Is Reported

CHICAGO, July 20.—In order to move the maximum number of troops on short notice the railroad of the country must have 6750 more cars permanently at the call of the war department, according to W. J. Black, passenger traffic manager of the Chicago and North Western Railroad, in a statement here today. Such an increase, he said, would allow the movement of 1,750,000 troops within forty-eight hours.

The railroads, Mr. Black says, have a surplus of about 3000 passenger cars. With fifty men to a car these would accommodate 400,000, including 250,000 troops, and 150,000 additional, for a total of 457,500 men could be transported at one time without disturbing commercial business.

Black declares that if all passenger and sleeping cars in the United States were used at once 1,750,000 troops could be transported, but it would be impracticable to abandon all commercial trains in time of war. At least 50 per cent of the normal traffic would have to be maintained. On that basis, he says, available equipment would enable American railroads to move 500,000 troops in forty-eight hours, hence the increase in cars necessary if it were desired to move the largest contingents.

Would Save Money From Firm's Creditors

William A. Wallace, a former Chicago business man who now resides at 140 Magnolia avenue, is now a fight in the Federal courts in San Francisco to retain possession of \$7000 which Attorney Charles Kramer of Chicago is seeking to have included among his assets.

Attorney Kramer represents Chicago creditors who are opposing the bankruptcy proceedings commenced by Wallace. It is alleged by the opponents to the bankruptcy that Wallace has purchased a new home and invested in other property since he filed his petition.

Wallace claims that the \$7000 in a safe deposit vault is the property of his wife and that it should not be included as an asset in the proceedings. He explains that he was formerly connected with a Chicago firm in which he had acquired some stock. He sold the stock, he says, receiving therefrom the sum with which he refused to be taxed for any of the debts.

Railway Employees Plan Annual Dinner

The first annual "get-together" dinner of the employees of the San Francisco-Oakland Terminal Railway will take place at Idera Park on Thursday evening, August 17, at 7 o'clock. All who can be relieved from duty at that hour will be present, and preparations are being made for an attendance of at least 600. A. H. A. Smith will preside as chairman of the dinner. The guests will spend the evening in the enjoyment of the various attractions in the park.

Many Oaklanders at Mt. Hermon Meeting

MOUNT HERMON, July 20.—A large number of Oakland people gathered this week at the Mt. Hermon conference, being held here. Several noted speakers are to be heard during the session, among these being Rev. George W. Brewster, D. D., former pastor of the First Christian Church of San Jose, and state superintendent of missions; Mrs. Hallie Hall missionary from Peru, and several others.

Mrs. Hill is lecturing on her work in South America, telling of Indian customs and beliefs, and describing many quaint customs of the aborigines.

Secretary Returns From Week's Fishing

WATERTOWN, N. Y., July 20.—Secretary of State Lansing returned to his cottage at Henderson harbor last night after a week's bass fishing trip on Calloups lake in Lake Ontario. He is greatly improved in health and expects to spend two weeks more at Henderson harbor.

ARMY Y. M. C. A. TO WORK ON BORDER

Plan Establishment of at Least Twenty-Five New Branches.

NEW YORK, July 20.—The Army and Navy Department of the Young Men's Christian Association, dealing with the first general mobilization of the National Guard of the United States since the association was officially recognized by general orders of the War Department, announced some interesting features of its plan for work among the troops on the Mexican border. The association plans to establish at least twenty-five fully equipped branches at camps where there are brigades or single regiments of troops, and through these to demonstrate the efficiency of the association's work in soldier life.

Regardless of the eventualities the work will be carried on with vigor, the association leaders say, for although avoidance of war modifies the methods of the work, the concentration of relatively permanent units of troops makes Y. M. C. A. influence an even more necessary factor than in the event of war itself. It is explained that emphasis will be first laid upon work among the state troops, because they have just been picked from civil life and need the kind of help the association can give, more than the regulars need such leadership.

In case of war troops would be sent across the line and shift positions so continuously that the Y. M. C. A. work would have to be conducted through small branches in the field. Without war, but with thousands of troops stationed along the border for an indefinite period, most of them in large garrisons or camps, and subject to emergency or patrol duty, conditions will exist calling for the utmost efforts on the part of the army Y. M. C. A. branches.

Officers of the War Department, from the Secretary of War and the members of the general staff down, recognize the danger of breakdown in the moral and social ideals of the men in their new environment and they are not only welcoming the association work, but urging that it be established wherever possible and offering co-operation to the fullest extent under military rules and regulations. Every step that has been taken has been after consultation with the higher officers of the War Department and the army and all plans for work at the camps are put into execution after consultation with the commanders in the field, who are offering every possible assistance and co-operation.

BUSINESS MEN TO MEET.

PLEASANTON, July 20.—Important questions affecting local improvements will be discussed at a meeting of the Chamber of Commerce this evening. A large attendance of members is expected.

Film of 'Spoilers' to Tell Gripping Story of Life in Alaska

Rex Beach Narrative Is Offering to Movie Enthusiasts

Rex Beach's masterpiece, "The Spoilers," has been rightfully termed "The Picture That Will Live Forever."

The new edition de luxe, which is produced in twelve reels, gives even a more striking reproduction of this famous story than the original. In the matter of action "The Spoilers" is most momentous. The gun-play in the streets of Nome, the ready use of the good right arm to settle disputes, the tense and feverish crowds that hang over the gambling tables, where fortunes in dust were swept away in a single night's play, all have their part in this big drama of reality.

Never before or since in the world of film has there been a more striking and thrilling fight, than the contest between Glenister and McNamara. This battle has almost become a classic.

The work of Kathleen Williams as the great-hearted adventures, Cherry Marlette, is superb and deft.

William Farnum as Roy Glenister, who from being a civilized individual, returns almost to the man primal and who lives out his motto, "What I Want, I Take," has achieved his greatest success in this role. As a matter of fact, it was this picture which made Farnum famous.

"The Spoilers" will be run at the Broadway Theater for the balance of the week.

WILMINGTON, Del., July 20.—Some of the secrets in connection with the filling of orders for the entente allies by the Du Pont Powder Company were told on the witness stand in the Federal Court here yesterday by Colonel Edmund C. Buckner, vice-president and head of the military sales department of the company, in the suit over the possession of about \$56,000,000 worth of the corporation's stock. Colonel Buckner said at times there was reason to fear the company would not be able to complete its foreign contracts.

Overzealous partisans of foreign governments in the employ of the company, Colonel Buckner testified, put nails in powder boxes, also scraps of offal and various things that would cause the product to deteriorate and be rejected by the purchasers. Also, he said, there was a fear that one or more great explosions would destroy the plants already overworked. While there were minor explosions, none of them, he testified, could be traced to the work of enemies, but the company was constantly on guard.

The suit was brought by stockholders against Pierre S. du Pont and certain directors who are accused of having purchased the Coleman du Pont stock for their own personal benefit instead of for the benefit of the company. Fourteen million dollars was paid for the stock, which, because of war contracts, increased in value to \$56,000,000.

Colonel Buckner testified that the allies became alarmed when rumors were spread that interests unfriendly to the allies were about to purchase the stock, and there was relief expressed when it was learned the securities had fallen into the hands of Pierre J. du Pont and his friends.

Colonel Buckner further testified that the allies for a time balked at paying in advance of 80 per cent of the purchase price of powder. Up to March, 1915, he said, France had contracted for 56,000,000 pounds of powder for \$52,000,000. One reason for asking the advance was to protect the company against the advancing price of materials. Colonel Buckner said, "Total rose from 30 cents a gallon before the war to \$11 a gallon and a certain add advanced from \$14 to \$150 a ton."

Think of Paying Less for Firestone TUBES!

Here is a unique combination: Highest quality at lowest price. Only Firestone can do it. We will tell you why. Briefly, it is because tube values are a more or less known quantity. A tube is the heart of a tire—the foundation of riding service. It shows its worth or lack of worth promptly. That means that all recognized makers must maintain a fairly good standard at least. Therefore, while no one else delivers as much as Firestone, those who come anywhere near in quality must go above in price.

The prices speak for themselves and so does the quality. Firestones look the extra quality, you can feel the extra quality, you can weigh it.

The bulk of pure rubber is there, in addition to the Firestone "Know How" of chemistry and workmanship. Then why is Firestone lower in price? Specialized production on an enormous scale is one reason. The largest exclusive tire and tube factory in America cuts cost for you.

Specialized marketing facilities of international scope is another reason. America's largest distributing organization devoted solely to tires and tubes cuts cost for you. The specialist at buying saves you some more.

MEESE MEETING AT AUDITORIUM

Speakers to Address Gathering
on Issues of Recall
Election.

Citizens of Oakland will hear the issues of the present campaign in a mass meeting, to be held at the auditorium tonight by the Women's Meese Campaign Committee of Oakland, when Edwin Meese, candidate for a commission in the recall move directed against Dr. F. F. Jackson, will be the speaker of the evening. The speakers will include Dr. Mabel Anthony, F. P. McDonald and Albert P. Siefert, an Oakland attorney. The meeting is one of a large series at which the issues of the campaign are being discussed and in which startling charges have been exchanged by various candidates. The meeting tonight is to be the largest Meese meeting held so far.

LIGHTNING KILLS TWO.
BRIGHTON, Ia., July 20.—Gilmore Swamy, superintendent of schools, and the Rev. J. W. B. Jefferson of the Presbyterian church at Brighton were instantly killed when struck by lightning as they were leaving the Brighton Chautauqua grounds yesterday afternoon.

MILITARY HISTORIAN KILLED.
LONDON, July 20.—Major Sir Foster Hugh Egerton Cunliffe, military historian, has been killed in the fighting in France. Major Cunliffe wrote the official history of the Boer war, as well as several books on the present conflict. He was born in 1875.

'Business Is Good,' Says Fire Chief

Alarms This Month
Break Record

"This is a record month for alarms," said Fire Chief Elliott Whitehead, as he jumped into his machine, preparatory to answering the frantic summons of somebody whose back-yard grass was blazing. When he came back from the fire he checked up on the actual number of conflagrations, which the department has been forced to answer since the first day of the month.

"The month is only two-thirds gone," said the chief, "and we have been called out for eighty-nine actual alarms. Of these, thirty-eight were sent in through the telephone, while the other forty-one came from the street-corner boxes. Last year the month of July saw 125 alarms. Unless business is a slump in the alarm business, it looks as if we will be compelled to answer a great many more calls than ever before.

If we were to accept the entire record of alarms, we could say that 125 alarms had been turned in to date, but some of these counts must be eliminated, as they represent the same fire. Sometimes a telephone call comes in just a few seconds before the lever in a street-corner box is pulled. Both of these calls are registered with us, but are not counted as separate alarms. We have 125 calls as total, of which eighty-nine are actual alarms. By the end of the month, I think, the department will have gone through a record of thirty-one days."

Eleven Men and One Woman to try Case

SAN DIEGO, July 20.—A jury of eleven men and a woman has been sworn in to try the case of E. Milton Barber, former cashier of the San Diego Savings Bank, who is accused of felony embezzlement and grand larceny. The wife of the defendant is expected to be one of the chief witnesses for the defense.

TROUBLE STARTS AS STOW RETURNS

U. S. Revenue Office in San
Francisco Is Scene of
Activity.

SAN FRANCISCO, July 20.—Chester H. Stow, field agent in the United States revenue service under Special Revenue Agent William H. Chapman, has returned to work. Official machinery is breaking and trouble is brewing for some of his enemies, according to rumors emanating from revenue headquarters. Several transfers followed his return, after a thirty-day suspension order against him had been hurriedly removed.

As the result of Stow's fight to clear his name when attacked by other agents, a searching inquiry into the conduct of the revenue office is expected.

Stow was first accused by Accounting Agent Hal Atkinson of "padding" his expense bills. Atkinson declared that he charged more for his room than he should have; that he had meals charged up at \$1.15 that should have cost 75 cents, and reported other alleged irregularities.

The result was an order from Washington, suspending Stow for thirty days and ordering him to refund \$300, alleged to be the amount of the overcharges.

But, instead, Stow wrote a red-hot letter—hot enough to get to the "higher-ups," who at once proceeded to investigate.

Stow declared that he had been "framed" against by Atkinson, B. Thomas, a former internal revenue agent, and others. He had testified, he said, in a hearing after which Thomas left the service, and that threats were made at that time to "get" him.

Atkinson has been transferred. Stow is back at work. Federal officers are silent.

Would Bring Fire Convention to City

Oakland will be a meeting place of the Fire Chiefs' Association in 1917 if Chief Whitehead's efforts to procure the convention count for anything. The local official is going south next month with the avowed intention of bringing the 125 members of the organization to this city next year, and from the present outlook he believes that the prospects look more than bright.

This year's convention is to be held in San Diego, August 26, and Oakland's delegation will number five, according to Chief Whitehead. The fire-fighters will probably motor to San Diego. The party will include former Chief McDonald, Chief Whitehead, Captain Charles Thaler of Engine No. 1, and two of the battalion chiefs. Many new ideas and methods will come before the convention.

Collier Damage to Be Inquiry Topic

CHARLESTON, S. C., July 20.—The cause of the disablement of the engines of the large naval collier Hector and her subsequent abandonment off Cape Romaine, S. C., July 14, will be the subject of investigation for a naval court of inquiry beginning at Charleston today. The Hector grounded after going disabled in a hurricane, and it was thought she would be a total loss. All the 145 persons aboard were brought here. Captain Newell and members of the Hector's crew were expected to testify at the inquiry, which is headed by Captain William R. Shoemaker.

SOCIETY News and Views of WOMEN Uncle Wiggily KIDDIES

GARIS' BEDTIME STORY

UNCLE WIGGILY AND THE BUNNY MAN

HOWARD D. GARIS

"Where are you going, Uncle Wiggily?" asked Sammie Littlefield, the rabbit boy, one day, as he saw the bunny man come down out of his hollow stump farm house and start across the field and green meadows.

"Why, I am going for a walk to see how the fruit and vegetables are growing," Uncle Wiggily answered. "Do you want to come with me?"

"There are no more green apples, are there?" Sammie wanted to know, making his pink nose, which was just like Uncle Wiggily's, twinkle in the sun.

"No more, I am glad to say," answered the rabbit. "The skilful-scully alligator knocked all the green apples off, so you boys could not eat them, and make yourselves ill. All that are left are ripe ones, but they will not be ready to eat for some time."

"Oh, dear," said Sammie, sort of sighing like.

"What's the matter?" Uncle Wiggily wanted to know.

"I'm so hungry," went on the little rabbit chap, "I was counting on eating apples, but if there aren't any—"

"What would you say to peaches?" asked the bunny man.

"Peaches? Oh, my!" cried Sammie, smacking his lips and clapping his paws. "That's just fine! But where are some?"

"I have a peach tree on my farm," went on Uncle Wiggily. "The peaches ought to be ripe now. Well, take a walk over and see."

Through the woods and over the fields went the bunny uncle and the rabbit chap. It did not take them long to reach the place where the peach tree grew, and from the limbs were hanging many beautiful red-cheeked ones, all ready to be eaten.

"Oh, yum-rum!" cried Sammie, happily.

"I think I'll eat a few myself," said the bunny gentleman.

So, first spreading a soft carpet of green grass under the tree, Uncle Wiggily and Sammie knocked down some of the fruit. It fell, bounced up in the air, they caught it and made a peach picnic at the foot of the tree.

"We have enough," said the rabbit gentleman as he laid out the picnic. "We can eat some, Sammie, and I will take home a few in the top of my tail suit hat so Nurse Jane can make a peach short-cake."

The bunny gentleman and the little rabbit boy sat under the soft tender and sweet peaches, talking about how good they were, and how nice it was to have a farm with your own peach tree. All things you needed for your meals, when, all of a sudden, down at the end of the

EXPRESSION IS GREAT ASSET IN MOVIES' WORLD DECLARES STAR

"TALKING WITH ONE'S FACE," MISS ANNA NILSON FEELS STUDIES IN EXPRESSION.

Miss Anna Nilson Has Charm and Personality and Might Dictate Letter

Is it expression that makes the "movie" actress, or personality, or beauty? Some say beauty, some personality. Few consider the most important thing of all—expression. In the film industry, expression cannot talk—save with her face, and until she learns the "face language," beauty, personality—nothing else counts on the black-and-white screen.

So says Anna Nilson, one of the most beautiful film actresses of today, possessor of a wonderful personality as well, and the star of "Who's Guilty?" the sensational film story of Mrs. Woodrow Wilson.

The "face language," as Miss Nilson calls it, is her tool of expression, just as spoken words are the tools of the stage player. For the face does more than "register emotion." It must register personality—the very soul of the actress. Through her face she must give her audience a peep into the inside of her mind.

Miss Nilson can talk more eloquently with her face than with words; her expression being the despair of other film actresses, and the marvel of all who behold it.

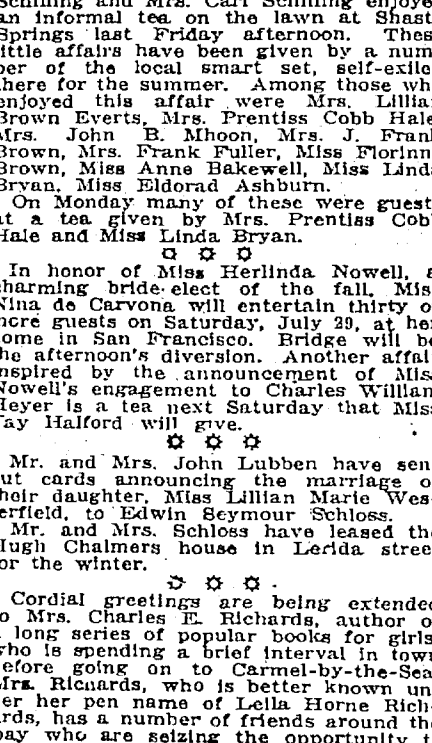

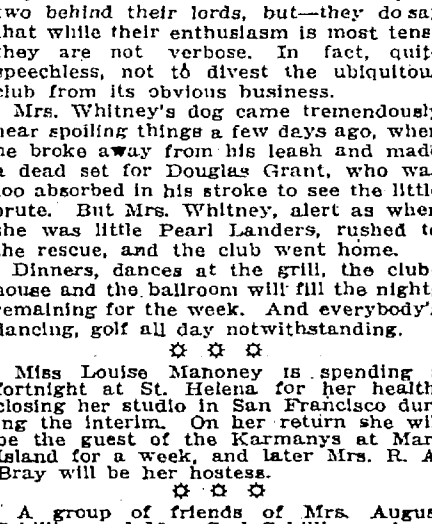

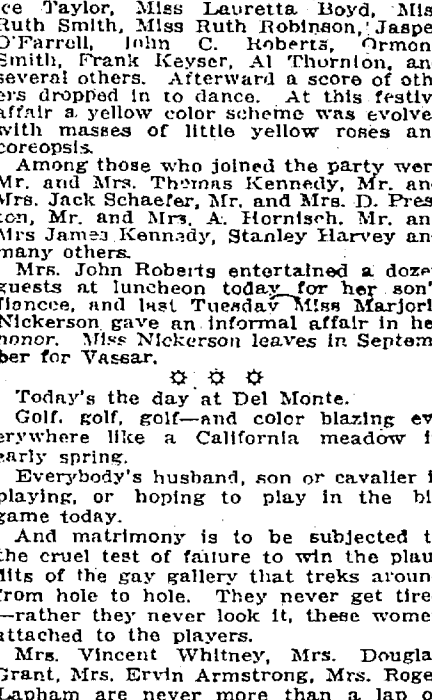

Her face is so full of expression that

New, Positive Treatment to Remove Hair or Fuzz

(Beauty Notes)

Women are fast learning the value of the use of delatone for removing hair or fuzz from face, neck or arms. A paste is made with some powdered delatone and water and spread on the hairy surface. In 2 or 3 minutes it is rubbed off, the skin washed and every bit of hair has disappeared. No failure will result if you are careful to buy genuine delatone.—Advertisement.

CONFESSIONS OF ROXANE

By FRANCES WALTER.

The next few days were days of joy to me. With the discovery that Arthur had been kept from home that memorable night by the necessity of pursuing poor Mr. Tanner, all my doubts concerning my husband fell away and I was happy in the belief that his affection for me was stronger than it had ever been. Even when I thought of Myrtle Staley there was no jealousy in my heart. And as for Mrs. Tanner, whatever possibility there had been that Arthur loved her was now a thing of the past. Indeed, as events had worked around I was more than ever convinced that it was Arthur's little affair with Mrs. Tanner that resulted in our first declaring our love for each other.

As for Myrtle Staley, I could only hope that his acquaintance with her might result in a happily for me. I knew that even if Arthur had kissed Myrtle, the affair had stopped short of anything more serious. I was prepared to believe that any carous he had bestowed upon her was merely the result of a momentary whim, and was no matter of any abiding attraction for him in the Staley girl.

Therefore, I was not much surprised when Arthur, coming home from his office one evening, remarked in a casual way:

"I see our little friend, Myrtle, is engaged."

I made no comment for a moment, and then I inquired as indifferently as I could how he had obtained his information. His unclouded face beamed, and pointing to the society news, said:

"There it is. She is to marry young Willoughby, the whole grocer's son. I read the announcement and could not forbear a brief sigh of relief. I had been right all along, believing that, fast as in Arthur, despite the gossip and scandal which had been poured into my ears, I felt that she was destined to be fully as happy as I had been after the manner of my husband. I was mistaken. A day succeeded day, and I seemed more completely filled with contentment than preceding days. Arthur devoted himself to his work, and I to mine. Almost every evening we sailed forth to enjoy ourselves in one way or another and no matter where we went our complete congeniality assured us a joyous time.

His admiration for me knew no bounds. Each evening when I was dressed he stood me before him and, placing his hands upon my shoulders, gazed lovingly into my eyes.

"Roxane," he would say, "you are the most beautiful woman in the world. I love you more each day."

His deep, strong tones never failed to thrill me. When he said those words, which made my blood tingle, I felt that every woman loves to be admired, and I must surely have been a woman loves the admiration of her husband above all things.

(To Be Continued.)

Five Hurt in Auto Crash Across Bay

SAN FRANCISCO, July 2.—Five men were injured, two of them seriously, in an automobile collision in Golden Gate park last night. The two cars came together near Fulton street and Thirty-sixth avenue at the turn in the road. Both were almost demolished.

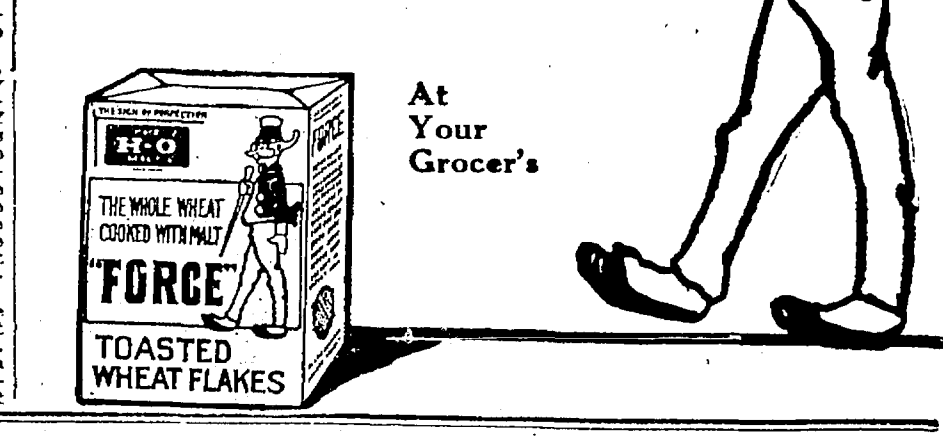

The injured are Fred Hansen, 111 Mason street, cuts and bruises; James Stewart, Hayward Hotel, incriminated scab, fractured right foot, internal injuries; John Cunningham, rancher, Ukiah; concussion of brain, internal injuries; Harry Schaefer, 525 Third street, cuts and bruises; End Eater, railroad conductor, 254 Townsend street, cuts and bruises.

The car driven by Fred Hansen, with Stewart as passenger, struck the Schaefer machine.

Watch Your Children's Food

—TOASTED WHEAT FLAKES is a combination of selected whole wheat and barley malt—an ideal body-builder and tonic. Unexcelled as a food for children—being light, nutritious and easily digestible. Right food for children means strong and healthy bodies in after life. Besides it's delicious.

Nature Acts Quickly to Protect the Skin

In giving X-Ray treatments physicians do not administer the full standard dose until the skin has been bronzed by the milder rays.

Nature acts quickly to throw over the skin a brown pigment of protection against the burning of tissue.

The rays of light that decompose tissue also decompose the protein (albumin) in beer, causing a skunky taste; but not in Schlitz.

The Brown Bottle Protects Schlitz

That's why it tastes so good. It's nutritive value is unimpaired.

Drink

The Schlitz logo is written in a large, elegant, cursive script. The 'S' is particularly large and loops around the 'chlitz' part of the word.

MAY PROBE ELLIS ISLAND CHARGE

Congressman Alleges That Immigration Station Is Mismanaged.

NEW YORK, July 20.—A survey of conditions at the federal immigration station at Ellis Island will be made by Representative Isaac K. Seligson, who is chairman of the committee of the House of Representatives to find out whether the conditions alleged by Representative William S. Bennett to exist at Ellis Island warranted a Congressional investigation.

Bennett's charges of immorality and mismanagement on Ellis Island, as detailed in a statement by Frederick C. Howe, commissioner of immigration.

"The trouble," said Howe, "began when I requested the Department of Labor to take over the private contract for the feeding of immigrants at Ellis Island. I wanted the government to do it right and take the element of profit out of it. Bennett introduced an amendment to the sundry bill which denied the government that right. The contract in normal times amounts to hundreds of thousands of dollars."

Commodity Rates Are Announced by Roads

Commodity rates, reducing freight on a large number of products and vitally affecting Oakland in some of its factory output, have been announced by the transcontinental lines: Missouri, salt and produce, various sorts are on the list, and salt from Seale, Cal., in the crude, soda, in its various grade forms, from Keeler, Cal., are also given rates.

The rate on caustic soda and chloride of lime from Pittsburg, Cal., to 60 cents to points west of Chicago, and 60 cents to points east of Chicago. The commodity rate on rice and rice flour has been established by carload lots at 30 cents for far eastern points, Potato flour, salts and chemicals make up the remainder of the "commodity rate" schedule.

R. R. Men Satisfied With Lumber Rates

CHICAGO, July 20.—Transcontinental lines are willing to let rate reductions on lumber rates stand as they are, Henry Blakeley of St. Paul, first general freight agent of the Northern Pacific Railway, told the Interstate Commerce Commission, hearing testimony on lumber rates today. E. H. Scott, assistant commission counsel for Iowa, representing that state and its lumber shippers, said Iowa shippers have expressed themselves satisfied with the present rates. Walter Huncke of Des Moines also testified.

British Capture U-25, German Submarine

LONDON, July 20.—The first official announcement that Great Britain had captured a German submarine of the U-25 class was made in the House of Commons today by Thomas McNamara, secretary of the admiralty, who said that one of these vessels would be brought to London to be viewed by the public.

DAMAGES BORROWED CAR

It is probable that Leon Williamson, a youth of 1419 Twelfth street, will not violate section 18 of the Motor Vehicle Act again. He was taken to the city prison today, when it was found that he had driven off the automobile of G. M. Tuley, 2022 Essex street, Berkeley, without permission of the owner. Not only did he climb into the machine, but he crashed it into a building on the corner of A. L. Mayer, 549 East Twelfth street. This process broke the rear axle of the Mayer automobile, damaging Tuley's machine somewhat. Corporal Smith and Officers S. Connolly and W. C. Smith made the arrest.

POULTRYMEN TO MEET

The monthly meeting of the Alameda County Poultry Association will be held tomorrow evening at the Y. M. C. A. building, Hobart and Telegraph avenue. The feature for the evening will be "Midsummer Troubles." Active arrangements are now under way for the great combined poultry, pigeon, hare and pet stock show that will be held in the City Auditorium Thanksgiving week under the joint auspices of the Alameda County Poultry Association and the California Pigeon and Pet Stock Association.

IT'S YOUR KIDNEYS

You have swollen feet and hand? Stiff, aching joints? Sharp, rheumatic pains? You have aching back, pain in the lower abdomen, difficulty in urinating? Look out! These are danger signals. Trouble is with your kidneys. Uric acid poisoning, in one form or another, has not only caused kidney or fatal Bright's disease if not checked or cured. Get some GOLD MEDAL Heurim Oil Capsules immediately. Use all over the world for centuries, combining natural healing oil and herbs, well known to physicians and used by thousands in their daily practice. The Capsules are not an experimental medicine. Their effect is only temporary. They are a standard remedy, and act naturally, and quickly. Get them when you go to the drugist. Insist on getting the pure, original Heurim Oil in Capsules. Be sure the name GOLD MEDAL is on the wrapper, and thus protect yourself against counterfeits. Guaranteed and sold by The Owl Drug Co.—Advertisement.

One Spoonful Gives Astonishing Results

Oakland residents are astonished at the QUICK results from the simple mixture of buckthorn bark, glycerine, etc., known as Adler-I-Ka. This remedy acts on BOTH upper and lower bowels and is so EFFECTIVE that a howl cleaner that it is used successfully in appendicitis. ONE SPOONFUL of Adler-I-Ka relieves almost ANY CASE of constipation, sour or gassy stomach. ONE MINUTE after you take it the gases tumble and pass out. Osmond Brothers, druggists.—Advertisement.

\$1.00 A Week Will Dress You

Suits to Order or Ready Made, 437 12th St., Bet. Wash. and Clay

Blue Bird Bureau

The quest for happiness led Merle T. to the Blue Bird Bureau this morning. Ordinarily, the Blue Bird's acquaintances have no difficulty in making clear their wants, but Merle had to resort to pencil and a pad of paper, so right away you can see how he is handicapped. We should judge our latest acquaintance to be about 22 years old. He has clean-cut features, an intelligent face and a stubborn jaw. You would take him for a college athlete, and expect him to discuss any moment on campus ethics, but Merle has never uttered a word in his whole life. He was born without the power of either speech or hearing. During his boyhood days, Merle rebelled at an unkind fate and ran away from home and school so frequently that his parents lost control of him and sent him to the custody of state authorities under whose tuition the boy's disposition was trained along straight lines. He was graduated with an excellent record, and then entered the wide school at Berkeley for the Deaf and Blind, where in two years he mastered a difficult course.

Merle now desires to follow the occupation of a farmer. He has had some experience on a ranch and desires to obtain enough more to enable him to enter the State Farm School. Now it is possible for a chap who can talk at all to make his wants very clearly known to those in a position to aid him, so Merle, who is at the Blue Bird Bureau and who promised to tell our friends about him.

So far as the work of an ordinary farm hand is concerned, Merle could fill the shoes of a cow boy, a plow man and a plow or drive and he does not expect

Girl and Employer Disappear; Mystery

SAN FRANCISCO, July 20.—The police were inclined today to ascribe to chance the fact that both Lorine Cheney, a 16-year-old delinquent, and Mrs. G. H. Floyd, in whose home the girl was employed, had disappeared at almost the same time.

The Cheney girl, a ward of the Juvenile Detention Home, has been employed as a domestic by Mrs. Floyd at 2022 Fillmore street. The police have been keeping a watch on her and were startled when she dropped from sight. When they began their investigation they discovered that Mrs. Floyd, too, was missing. The information came from neighbors that the woman appeared at one time with gray hair and again with tresses of brilliant auburn hue, added to the mystery.

Mrs. Katherine O'Connor, woman protective officer, said this morning that she believed there was no significance to the fact that the two were missing at the same time and that she was satisfied that Mrs. Floyd had nothing to do with the missing of the Cheney girl, who is being searched for throughout the city.

Efficiency Experts Finish Work in S. F.

SAN FRANCISCO, July 20.—The efficiency experts, Clement Driscoll and H. R. Sands, who have been investigating the municipal government in all of its departments, said today they will complete their official report.

The two experts have completed their survey of the seven city departments having wound up their search for trouble in the police department at 10 o'clock this morning. Secretary Joseph Driscoll and Driscoll spent last night going over the books of the police force at the Palace hotel and today at 10 o'clock Driscoll paid a visit to Chief White just prior to his departure.

Girl Is Injured in Motor Car Collision

Miss Helen Rutherford, 1948 East Seventh street, is suffering from bruises today as the result of being knocked to the ground by an automobile at East Fourteenth street and Fourteenth avenue. The machine was driven by Mrs. Robert J. Sherrard of 2000 Clinton avenue. Sherrard, who stopped immediately and offered her services to the victim, Miss Rutherford refused to be taken to the Emergency Hospital and went home without aid.

Boy Killed, Woman Is Badly Hurt, in Storm

GODDARD RAPIDS, Iowa, July 20.—Jack Young, 12, and his mother, Mrs. Squire Cheeser, perhaps fatally injured and much damage to property done by a storm last night when 448 inches of rain fell here in an hour. Crops in this vicinity were badly damaged.

Pastor Arrested on Boot-Legging Charge

MONTGOMERY CITY, Mo., July 20.—Rev. R. M. Mills, pastor of the Methodist churches in Missouri and other states for eighteen years, is in the county jail here. Rev. Mills was accused of boot-legging, was fined \$300 or sentenced to serve 180 days in jail, and accepted the latter punishment.

LOCKER IS LOOTED

The police are investigating the activity of a sneak thief who took a gold watch, gold cuff links and a pair of shoes from the locker of Eugene Lafferty, a butcher employed in Long's Market, tenth and Washington streets. Lafferty always changes his clothes on coming to work in the morning, leaving behind jewelry and other things not essential to the serving of customers. The lockers are in the basement, and as a consequence, Lafferty does not know what time the property was taken.

CITY PAYS INJURED MAN

The city council passed an ordinance to print this morning, appropriating \$669.72 out of the general fund-casualty insurance appropriation for John M. English, who was permanently disabled while on duty as a street inspector for the city. The appropriation was made in accordance with the award of the Industrial Accident Commission, filed and made July 19. Commissioner of Streets William J. Bacaus introduced the ordinance. Routine matters occupied the rest of the council's time.

PLAN SUBMARINE MAIL

LONDON, July 20.—A Geneva despatch to the Exchange Telegraph says that the Munich Nachrichten publishes a Berlin despatch saying that the postal authorities are compiling regulations and scales of charges for a submarine postal service between Germany and the United States.

NOT TO DECLARE ANGLLO TRADE WAR

Blacklist Matter to Be Taken Up for Consideration With the English.

WASHINGTON, July 20.—The possibility of a trade war with England over her blacklist policy was deprecated by many officials here today. They said for one thing that the Bryan arbitration treaty might prevent the United States from taking any retaliatory measures before a year. By that time the necessity for the blacklist very likely will have ceased.

Another difficulty which the government will encounter is that of proving that steamship lines are violating the international commerce commission act in refusing freight of blacklisted firms. In the past the steamship companies have refused to lay complaint against the British authorities and have claimed there was no much cargo they were justified in not taking that of a doubtful nature.

The State Department is expected to take the matter up shortly with the British government, however, by note and informal negotiations, in an effort to obtain modifications of the British order.

Five Lawyers Fail to Win for Peeples

After three days' trial in the Superior Court, R. G. Peeples, who was accused of the theft of an automobile in Oakland last February, has been found guilty by a jury following deliberation of less than an hour. Five attorneys were allied in his defense. An effort was made to prove an alibi for the defendant in that he had purchased the car found in his possession when arrested.

Seven-Foot Shark Is Caught in Stream

MATAWAN, N. J., July 20.—A shark seven feet long and weighing about 200 pounds, was killed yesterday at the entrance of Matawan creek, in which a boy was killed and a young man who tried to rescue him so seriously injured a week ago that he died soon afterward.

Thomas C. Cottrell and Richard Lee, in a small power boat, encountered the shark yesterday. It was one of the diamond tooth or blue nose variety, they said, and appeared to be headed for the bay. The men threw out their net and the shark became entangled in it. After a struggle in which it was said the tiger nearly overturned the boat, Cottrell struck it with a heavy iron pipe. This stunned the shark and the fishermen dragged it to the side of their craft and kill it.

FIREMEN INJURED IN SAN LEANDRO

One Burned and Another Hurt in Fall at Fire.

SAN LEANDRO, July 20.—Two firemen are suffering injuries as a result of a fire which destroyed the home of Dr. W. A. Sehorn on Beverly avenue and Broadmoor boulevard. One of them, Arthur Larson, had his right arm severely burned. Al Thierly, another member of the department, incurred injuries to his hands and arms when he fell from a window of the burning house. Both men remained on duty during the fire and were later given medical treatment.

The Sehorn home was in flames yesterday when the firemen arrived and their efforts were largely confined to saving neighboring dwellings, one of which caught fire from sparks. The drunken complain, they were handicapped in fighting the flames on account of poor water pressure in the fire hydrants and because the alarm was not given until fifteen minutes after the outbreak was discovered.

Members of the Sehorn family were away from home at the time of the fire. Neighbors, the whom learned, saw smoke coming from the house, but on the supposition that the Sehorn was at home and did not think there was anything wrong until more than fifteen minutes later, when flames burst out through the walls.

"Pirate" Is Daughter of Wealthy Baker

SAN FRANCISCO, July 20.—Police of Los Angeles were searching today for a resident of that place, who is accused by Elizabeth Pfefferman of San Francisco of being involved in a scheme to embezzle \$3800 from Albert Baccello, her fiancé. The girl, who gave the name of Senola Stewart when arrested, admitted that she is the daughter of Christopher Pfefferman, a prominent German baker here.

In the city prison where she was lodged today, the girl admitted receiving the \$3800 from Baccello, but insisted that she had originally been sincere in her intentions to build a bungalow with it for herself and Baccello to occupy after their marriage, until she met the Los Angeles man.

Beer Orgy for Fish in Waters of Sound

SEATTLE, July 20.—A carload of beer, consisting of 10,000 quart bottles, has been seized by the police. It was shipped from San Francisco. The beer will be dumped into the bay.

Police Take Up Boys After 9 P.M.

Seven Spend Night in Detention Home

Little boys who stay out late at night must suffer the consequences of their bold but bad action, according to the police, who are determined to enforce the curfew ordinance stringently. As a consequence seven youngsters, ranging all the way from 12 to 15 years of age, spent the night in the detention home. They were probably sent home this morning.

The crew of youngsters captured after the nine o'clock whistle had blown, included Francis Condon, Joe Leimer, Frank Leimer, George Anderson, Ralph Emeldi, Emilio Sergi and Henry Cherry. Corporal Smith and Officers W. Smith and S. Connolly were the eagle-eyed policemen who caught the youths at Eighth and Pine streets. Young seekers of night adventure had better take their parents along with them, if they intend adventuring after 9 o'clock.

Bulldog Springs at Kitten; Bites Girl

The thoroughbred bulldog of Mrs. E. Neil, 310 Twentieth street, is under investigation today by the pound authorities; little Katherine Teale of 55 Vernon street has a tooth-bruised forearm and "kitty," the cause of it all, still despises the canine world intensely.

Katherine, who is but four years old, had the kitten snuggled close to her when the powerful, though ordinarily peaceable, bulldog sniffed the air. He scented an enemy. Running along the sidewalk until the scent grew stronger, the dog finally saw the object of canine wrath. He forgot that he was living in a world which demanded peace and quiet—forgot all else except that there was a time-honored grudge between the dog kingdom and that of the feline world.

He jumped—and missed! His teeth sank into the girl's forearm, leaving a mark which may cause the dearest death for him. Katherine, still holding the kitten, ran to her home. The wound is not serious.

Cap. Condon, U. S. A., Dies at Washington

SAN DIEGO, July 20.—Word was received here today of the death, in Washington, D. C., of Captain Clarence Condon, U. S. A., formerly stationed at Fort Rosecrans, San Diego. Condon was one of the best known men in the army and the only one, it is declared, ever to hold both the congressional medal of honor and the certificate of merit. He won his honors in the Philippine campaign.

STEEL DEFECT IS BLAMED IN WRECK

Funeral of Victim of Accident Tuesday Is Held Today.

Superintendent George H. Harris of the Key Route System believes that a crystalline axle cors caused the derailment of the car which killed one woman and injured three other persons Tuesday afternoon at Twenty-second and Market streets. The outside of the axle is in good condition, according to the railroad official, and a defect in the steel is the only other solution to the mystery of the death accident.

The funeral of Mrs. D. B. Walls, who was killed by the derailed car, was held today at the home of her sister-in-law, Mrs. George W. Drinnan, who suffered painful injuries when the car jumped the track. Following the services at 833 Mead avenue, the body was cremated.

Two Hundred Ceylon Fishermen Drowned

LONDON, July 20, 11 a. m.—Two hundred fishermen are believed to have lost their lives in a monsoon off the coast of Colombo, Ceylon, according to a despatch received by the Exchange Telegraph Company. A large fishing fleet was caught by the storm and more than one hundred boats have failed to return.

Appeal Is Upheld on Eve of Hanging

WASHINGTON, July 20.—Robert Stroud will not be hanged tomorrow at Fort Leavenworth, Kansas. The justice department today announced Stroud, sentenced to death for the murder of a prison guard, has perfected his appeal for a retrial and that a stay of execution is automatically granted.

ARRESTED FOR FAILURE

With a charge of failure to provide for a minor child written opposite his name on the police blotter, John G. Davis, a steamfitter, is in the city prison today, having been arrested at an early hour this morning by Officers Drew and Leonhardt at Market and Twenty-fourth streets.

Through Dead Men's Eyes

Through the eyes of your forefathers, who saw things in the light of the middle ages, is about the only way you, as a sane man of to-day, can possibly see the necessity for high rents, for extravagant decoration and for costly fixtures—so far as we can judge.

The sort of folderol and expensive clap-trap you find in many extravagantly conducted street level clothing stores to-day may have been allright in years gone by, but you can to-day actually, honestly, fairly and justly buy

Men's and Young Men's Real \$25.00 Suits and Overcoats Always at Our One \$15 Price

We can see no rhyme or reason why you should add on top of that \$15 another \$10.00 or more and help some shrewdly minded merchant to pay for the extravagance which makes him believe himself "high class."

Listen to the voice of your own reason. Don't listen to the rules of those customs which were in force a hundred years ago. Notwithstanding the foolish European war talk you hear trumped up as an excuse—buy clothing here today, which is guaranteed pure wool and fast color.

We won't hand out Bunk, so we have no "Sales"

How can a merchant who really wants your respect, juggle prices up and down, most every day? We won't do it.

THURSDAY, JULY 20, 1916.

JOIN IN THE PARADE.

The preparedness parade in San Francisco Saturday will be a California affair. It is the civic and patriotic duty of the people of Oakland and other eastbay cities, as nearest neighbors to San Francisco, to make a big and a representative showing in the demonstration. We are under obligations of national duty to remind Congress and the President that we favor adequate national defense and are overwhelmingly for it without regard to policies or any other outside consideration. Participation in Saturday's parade is the one opportunity the people of this section of the State will have had for raising their voice and recording their judgment in the matter.

Preparedness does not mean war, as a few false pleaders and professional propagandists are telling us. It means safeguarding peace. It is a preventive measure against war.

The permanent residents of the Pacific Coast know that their land should be so defended as no longer to be an invitation to foreign invasion. They are unanimously in favor of preparedness. This being so they should join in Saturday's demonstration in impressive force. No local feeling, nor personal convenience, pleasure, or profit of a half-day, should be permitted to interfere in the performance of our duty.

Let every one who believes in reasonable preparedness, the kind that will avoid war and at the same time safeguard our national interests, send their name to Mr. Donovan and enroll for the parade next Saturday.

SOLDIERS' FAMILIES.

We will let Major Ralph J. Faneuf, commanding the California battalion of field artillery at Nogales, have a short editorial in this column:

I am disgusted with the fuss some people are making about sending delicacies to the soldiers, while the soldiers' families at home are in actual want. Our boys are well fed and cared for in every way. They do not care for chocolate and candy and picnic dainties. We are not suffering hardships of any kind, and we don't want to be petted and molly-coddled. All we ask is that the needy families at home be provided for. Let these generous people spend their money in that way—not in sending gifts to the boys here.

So writes the Major from his tent at the border. His ideas coincide exactly with our own. We pointed out the necessity of looking after the welfare of the soldiers' families before the local companies of the National Guard left for their mobilization camp. We recommended the organization of a committee of public spirited citizens to collect and administer a relief fund. We are happy to recall today that noteworthy progress has been made, about \$2500 having been collected. It is a matter of regret, however, that this is not sufficient for the requirements of the situation. The committee must have more support, or the families of some soldiers will suffer.

SAFETY FIRST MOTORING.

The automobile dealers held a meeting the other day to discuss the launching of an energetic campaign to regulate automobile traffic by educating the public and drivers of machines to a knowledge of traffic regulations. They referred to it as a "safety first" campaign. As we had occasion to remark when discussing a tragedy of a railway crossing, no amount of effort will make a roadway foolproof. But an educative campaign can do more than anything that remains to be done and the automobile dealers have taken the right course in initiating one.

Every day, and particularly on Sunday, the public roads are thronged with machines driven by men and women who are a positive menace to public safety. They have no business at the wheel of an automobile, because they either do not know the rules for drivers or are not disposed to follow them. They endanger not only their own lives, but the lives of other drivers and pedestrians unfortunately on the same road. The careful drivers and those who know the regulations and honestly obey them have to pay the penalty of regulations formed to control the ignorant, the foolish and the vicious.

The safety first educational campaign will give this latter class a chance to reform. If they want to know the regulations they will have an opportunity they should not under any circumstances neglect to profit by. And if they do not improve their opportunity the next step for society to take is to insist upon depriving those who will not learn the regulations or who willfully violate them of the privilege of driving automobiles.

All owners and drivers should realize the ad-

vantage of conforming to the rules designed for their safety and for the safety of the general public. Such a policy would mean not only the avoidance of nine-tenths of the accidents that shock us every Monday morning; it will mean that the lean and hungry rural constables who prey upon motorists and the sleek justices of the peace who lay up enough on Sunday to finance fishing excursions the other six days of the week will have to go to work.

SLIPPING THROUGH LEGISLATION.

American ship-owners have always displayed a habit to attend strictly to business and disregard the value of informing the general public of the importance and extent of their business. This characteristic reaped fatal results when the confiscatory La Follette seaman's bill was passed. The ship owners did not present their case and gave little study to the terms and effects of the proposed law.

They are pursuing the same course in regard to the bill now pending in the Senate to establish a government shipping board, with powers to regulate the most infinitesimal detail of ship operation. They have centered all their efforts on the feature of the bill authorizing government ownership and operation of merchant vessels. The section creating the shipping board puts every kind and size of water craft engaged in coastal or inland water interstate commerce under the severest and most costly government regulation. A large percentage of the small craft, which provide a living for individual operators and their families, will be forced out of business. To show the extent to which the administration tinkers propose to go, it is provided that the regulation shall extend to those "carrying on the business of forwarding, ferrying, towing, or furnishing transfer, lighterage, wharfage, dock, warehouse, or other terminal facilities in or in connection with a common carrier by water."

We are not condemning this proposed federal regulation on principle, but we wish to point out that the owners of common carriers by water have not stopped to consider its effect. They should do so at once and demand a hearing in Congress before the bill is finally passed. The National Rivers and Harbor Congress, which has won the confidence of the country by its impartial and able efforts for the development of water transportation facilities, says the bill is bad, that it will be confiscatory and destructive in its effects. Private shipping and row-boating interests will have themselves to blame if this prediction should prove true, unless they immediately stir themselves into action.

ON THE BLACKLIST.

The published order of the British government placing certain American firms on the trading-with-the-enemy "black-list" ought to impress us afresh with the extent and power of the British Board of Trade to control world commerce. England has maintained in this country during the last two years the far-reaching tentacles of an organization to coerce American trade. The firms mentioned on the list represent those who refused to submit to foreign espionage and foreign dictation, or who thought they could evade it.

The number who have complied with England's demand not to deal with any firm or nation without the approval of England reaches into the hundreds. The New York World, chief champion for the administration, laid the documentary evidence of the operation of the illegal system before the State Department at Washington. No action was taken. None is anticipated at present.

The only recognized belligerent instrument for preventing neutrals from trading with the enemy is the blockade. We are forced to observe that the illegal and unrecognized methods employed in the United States by foreign belligerents are many. The government is not entirely to blame. If business firms peddle their rights for a little extra profit and to facilitate the marketing of their products, as did the Chicago meat packers, the government is placed in an insecure position from which to enforce recognition of those rights. At the same time the few firms who have been blacklisted are entitled to protection against illegal methods in their own country if not in foreign countries.

BEING OLD-FASHIONED IS DANGEROUS.

(From the New Republic)

Not even President Wilson's choice of words is infallible. He declares himself "old-fashioned" enough "to believe absolutely in the Virginia bill of rights which says that a people has the right to do anything they please with their own country and their own government." Old-fashioned is good, but antiquated or obsolete would be better. The doctrine, if it means anything at all, is one that would justify the Turks in their Armenian massacres, the Russians in their pogroms, Huerta in his assassination of Madero. Ruthless oppression of minorities, brutal disregard of international obligations, would be justified under it. If it is the principle underlying President Wilson's Mexican policy, it can be only by accident that this policy works toward the advance of civilization instead of towards its decadence. Of course the adherents of this obsolete doctrine always made certain mental reservations. They would have argued that it was not really the Turkish, the Russian or the Mexican people that were guilty of outrage and massacre, but tyrants, vile criminal usurpers of the people's rights. In such case intervention to save the people from their oppressors would have been held justifiable. But this puts us back where we were in the beginning. If we are justified in refraining from intervention in Mexico, it can not be because we recognize the right of any faction that happens to be in military control to do as it wills with the lives, the liberties and the possessions of those not in control, but because we have become convinced by careful inquiry and honest reflection that Mexico will sooner right herself, re-establish order and general happiness, without our intervention than with it.

NOTES and COMMENT

The psychological moment has arrived at last. Congressman Stephens has been appointed lieutenant-governor.

Chester Rowell wraps up in his cloak of erudition in the statement that he and William H. Crocker "came to an impasse."

The large shark which invaded Oyster Bay shows hardihood in coming right up to a naturalist who knows something about ferocious fish.

The total absence of grief from the columns of Democratic papers in their notices of the multiplicity of Republican candidates for senator is noticeable.

The river boatmen have called it off, but the longshoremen want to think it over awhile yet. In the meantime the shipper does the best he can.

"By agreeing to accept election to the United States Senate, Governor Hiram W. Johnson has cut the Gordian knot of uncertainty in California politics," says the Stockton Record. "By agreeing to accept" is rich.

This startling form of har-kari is reported by the Hollister Preen Lance: "On account of the high price of paper and other raw material used in journalism, some of our exchanges are cutting out their patent insides."

California has butted into the goat business, according to E. W. Kent of King City, who tells of a \$100,000 factory to condense goats' milk, the only enterprise of its kind in the world. Further details are awaited with interest.

Dr. Aked has returned, bringing the unwelcome news that he will not go back to Europe unless Ford agrees with him "in a much greater concentration of authority." There is some fear that Ford will consent to his staying here.

Here is a new hyphenate: "Cotton-wood high school girl elopes with soldier-barber." Whether his irrepressibility was due to the first half of the link or the second half may be of mild interest to those who like to figure out such things.

Secretary of State Jordan says there is a dearth of candidates—cause unknown. Possible cause is that running for office under the existing laws is no financial joke. The candidate has to run twice, and each time it is grueling.

"It is often asserted that a man who does not work cannot eat, but there are several in Santa Rosa who depend upon the generous gullibility of the public to get their daily bread," observes the Santa Rosa Republican. Same in every community.

The Redding Searchlight, taking account of a news item to the effect that Humboldt county has a chicken that turns somersaults for pastime, adds, seemingly from the deep wells of experience: "But the chickens in other counties do a variety of things for pastime."

Explanation by the Fresno Mirror of a candidacy that has been rather difficult to understand: Judge Walter Bordwell came out Thursday as a candidate for United States Senator on the Republican ticket. Said Bordwell: "It was represented to me that it was necessary for me to be a candidate in order to defeat Johnson."

This from the Fresno Republican has no earmarks of sarcasm that can be detected, seeming to be perfectly serious: "Governor Johnson's announcement of his candidacy for the United States Senate, of course, transforms the whole political situation. In fact, whatever Hiram Johnson does in California becomes at once the overshadowing political fact in it."

One of the humors of the campaign from the San Diego Tribune: "The appointment of Mr. Rowell will be generally satisfactory to old-line Republicans, for the reason that while he has been closely to the Johnson regime in an advisory capacity he is less of a machine politician than any of the others who have had anything to do with the manipulation of the Johnson administration."

SPIRIT OF THE STATE PRESS

Rice will be the Sacramento valley's most important cereal crop this year. The total area planted is 72,000 acres. This is an increase of about 250 per cent over the total area planted last year, which was 23,000.—Sacramento News.

San Jose, under the direction of its new city manager, is to be made a "spotless town." Merchants who sweep refuse from their stores into the street will be arrested. The "white wings" will work at night, and street sweeping will be abandoned for the more sanitary method of flushing the streets with water, as is done in Stockton.—Stockton Independent.

Although the State Fish and Game Commission says nothing is equal to an English sparrow sandwich, there is little fear of the good old American ham losing its place as a favorite.—Chicago Enterprise.

The high cost of living is said to be worrying the municipal employees, many of whom are receiving more than they could obtain in private life for the same sort of work. Well, as to that, it is also worrying the taxpayers.—Richmond Record-Herald.

Chris Gilbertson had a battle with a prospect team that got into his prospect tunnel, and battle lasting three-quarters of an hour. Chris planted some dynamite near the snake, but only blew the rattles off the snake's tail. Finally the demon succumbed to a yjking-like blow from a young tree trunk.—Calaveras Prospect.

A Western Pacific train killed five colts for Fred Plink near Santa Thursday night. Fishermen going along the levee to the Paradise dam left the gate open and the stock got onto the right-of-way.—Tracy Press.

A LITTLE ACCELERATOR

—BROOKLYN DAILY EAGLE.

AS TO PROFESSORS' PENSIONS

Herbert Spencer said once in his caustic way that if England continued trying to save fools from the consequences of their folly England would become a nation of fools. What he meant was revealed in an illustration in the announced abandonment in this country of the Carnegie Foundation's old-age pension for college professors.

Of course, we are not calling college professors fools by saying this, but the underlying Spencerian idea was that people in this world must learn to look out for themselves and that continuation of efforts to save them from doing so only saps their self-reliance and makes them so enervated and inefficient that they will become unfit for the struggle of life. The tenor of the Carnegie Foundation's report is that the law had not been sufficiently considered when its pension plan was adopted and that experience has shown the mistake. It is proposed now to help the professors to help themselves, which is the one practical mode of philanthropy humanity has yet been able to discover in its centuries of experimenting. They will be advised to provide their own fund for old-age protection by purchasing insurance or annuities or otherwise, and the foundation will institute an agency for their guidance in this way, instead of making gratuitous gifts in the form of pensions.

We human beings must learn what seems to be our hardest lesson in life, that each of us has to finance himself and take his own thought for the morrow while he is receiving today's blessings. The stern compulsion can be lessened slightly through co-operation, but only within the limits experience has shown to be safe. It cannot be escaped by impulsive resort to unsound substitutes, and above all shirking of the inescapable burden by trying to make a communal task of what is an individual duty as viciously wrong. The schemes devised to perform this impossible feat all fall sooner or later, and the longer they are kept going and the wider the scale on which they are operated the more calamitous is their eventual collapse.

The Carnegie Foundation can terminate its mistaken policy without much hardship, no doubt, the principal sufferers being the relatively few professors who have been lulled into false security the last ten years by the prospect of assured old-age provision and have been spending the reserve they should have been laying by out of their incomes. These must suffer the consequences themselves for the sake of saving many more from worse consequences hereafter. But the example and the influence of the foundation's attempt to square the circle will not so easily be overcome, unfortunately. Many business concerns have been led to try the fallacy by reading of what the foundation did, and even now the United States government is embarking on precisely the same policy in the matter of postal clerks' pensions, the entering wedge for pensions for all government workers. The customary remarks of their unsoundness, so that it is to be expected that for years and years to come public servants will be carried along by the rest of the nation, will be lessened by the example of the struggling taxpayers by receiving from others the provision of their old age which a sturdy citizenry should make for itself.—Detroit Free Press.

THE JESTER.

Out Of It.
"Deed no, sah, I can't jine no army."
"But your country needs you, Rastus."
"Can't help dat. It's impossible."
"Why impossible, Rastus?"
"Well, you see my ol' woman has been ovah to de police co't an' put me unner bonds to keep de peace. No, sah, I can't do no fighting, nobow."—Boston Transcript.

A Highbrow.
"He's different to most men, anyhow."
"In what way?"
"He even knows all the words in the second verse of America."—Detroit Free Press.

No Reunions?
"I never heard you talk about your college days."
"Our class didn't produce nobody big enough for the rest of us to brag about."—Pittsburg Post.

So Different?
"Jones' plans are decidedly characteristic of the man."
"How so?"
"Why, they won't work."—Judge.

Had an Instance.
"Youth enjoys many things that manhood dislikes."
"Oh, I don't know. That's a platitude. Cite an instance."
"Well, when I was about 16 years old I thought that shaving was fun."—Kansas City Journal.

Safety First.
"My wife managed to drive a nail today without hitting her thumb."
"How was that?"
"She inveigled the hired girl into holding the nail."—Louisville Courier-Journal.

TWENTY YEARS AGO TODAY

The most daring balloon ascension ever made in this vicinity was successfully performed last evening by Prof. Robert Eastman. He ascended to an altitude of 3000 feet.

The meeting of the ordinance and judiciary, street, auditing and finance committees of the council, and the special committee on the pound, was held last evening.

Mr. and Mrs. C. B. Gould are at San Jose.

Mrs. J. C. Phillips left today for Kansas City, where she will spend some time looking after business interests.

Mrs. J. E. Johnston and family are stopping at Madrone Springs.

Mr. and Mrs. William N. Glenn and daughter returned last evening from a visit with friends and relatives in Stockton.

Mrs. E. H. Denison and daughter and Miss Jennings are at Tahoe.

FLOOD OF TECHNICALITIES.

In three months of 1910 nearly six thousand cases were tried by the appellate courts. In the process twenty-three thousand points were considered. Fewer than half these points had to do with the merits of the cases. That means that more than half the energy of the courts was devoted to discovering whether the machinery of justice had been used in the exact way prescribed by Congress and the legislatures. This material was gathered by Mr. T. W. Shelton for an address before the Mississippi State Bar Association, and was recently presented to the Senate committee which was considering the simplification of judicial procedure. It shows a remarkable waste of energy, to say nothing of the denial of justice.—Kansas City Times.

WESTERN WATER POWER AND THE CHEMICAL INDUSTRY.

"The economical use of a water-power for manufacturing chemicals by the use of electricity generated from them depends on the freight rates to the large markets. Niagara holds a unique position with its 3600 miles of shore line, affording cheap transportation to markets representing half the population of North America. In an editorial in Metallurgical and Chemical Engineering for July 1, reference is made to an article by J. W. Beckman on the possibilities of using the great water powers of the Pacific Coast for electrochemical industries. It is pointed out that while the western market is big and will grow larger, that the eastern industries could not compete in the eastern markets and therefore an export trade must be developed. By going West and South over one-half of the world's population can be reached. By developing this trade the Golden Gate will become the gate to a new and glorious future of the empire of the Pacific Coast.

MR. HUGHES' STRENUOUSITY

Is Mr. Hughes out after the strenuous life? We find him playing golf with his secretary, Mr. Greene, "who, besides playing the game, took dictation on the green between plays."

Dangerous work, Mr. Candidate. The secretary might get mixed up, you know, between golf talk and political notes. He might write that the Original Hughes Club of Medford, Ore., that its boasted primary was a bad lie, or he might send the Congressional Union some rough remarks about brassy work.

Of course, if Mr. Roosevelt had been the one to dictate correspondence between holes, we should all have said, "Just like his strenuousity."

Are you going to be as strenuous, Mr. Hughes. Here's hoping that you are. The times need it.—Chicago Evening Post.

"ALL THAT WAS MINE"

Only 'one's own in the end shall remain to one. Strive as he may; Other things counted as glory or gain to one. Wander away.

Pour the Dark Wine. I will drain it off royally. Smile—even so. How could I guess I would pledge Life thus loyally. Ere I should go.

I have had all that ever belonged to me (None shall have more); Blessings and gifts without number have thronged to me— Plena! the store.

Yet, like an ingrate I slighted the best of these. Mine by my right— Strangely it suited my pleasure to boast of those Wrestled through might!

Powers that I coveted—not the best part of me Went to their proof! Honors I pitied for—all the real heart of me. Reeling aloof!

Graced these my triumphs? Nothing withheld from me? Though in my train, Imperial thralls—at a breath! they rebelled from me— Cast off my chains!

Now, at the end of the day, I know—tardily. All that was mine Braces me lovingly, holds me up, hails me— Pour the Dark Wine.

Edith M. Thomas in New York Sun.

DABEL SEEKS MATCH.
Jack Dabel, the fighting "Bohemian," would like to get a match with some local 146-pounder, Jack Mitchell, "Young" Lewis, Jack Moore or Willie Webb preferred. Dabel is training at the Yosemite Club with Eddie Burns.

OH, YES, HE DID!
He didn't raise, he didn't swear, But smiled and doffed his cap, And begged the umpire's pardon, If he had spoiled his nap.

NORTHWESTERN LEAGUE.
Butte 10, Vancouver 9.

BOWLING

The House league tourney on Håreld's Ninth street alleys, was in full swing last night. In the 9 p. m. set Tabler's team took three straight from House team. G. Meyers of Tabler made high score of 220 and an average of 157 2-8 pins.

Stanton of the House team made an average of 178 hit. In the 9:30 set Norden took three straight from Green's team. A. J. Cushman of Norden team made high score of 210, an average of 164. House's Eliash of Green's team made high for his team with 159 2-8 pin average. The scores:

	1st.	2d.	3d.	Total
Tabler's team.....	204	172	154	530
Norden.....	180	172	162	514
F. Tabler.....	173	171	180	624
R. Whitney.....	178	171	180	629

Lacourse, p	0	0	0				
Little, rf	0	0	0				
Totals	4	10	2	Totals	3	8	1

Summary: Two-base hits—Fusco, Kerr. Sacrifices—Kerr. First base on called balls—of Loefer. Strike outs—Lacourse, Eggenfeldt, by Loefer. 0. Hit by pitcher—Hammer. Doubles—Tigres, 2. Errors—Tigres, 5. Time—45 and 45 minutes. Umpires—McCabe and McElroy. Score—Crosby.

Marxer barely gained a 2-1 lead over the Demons from Pittsburg last Sunday, and was being the toughest hit he has experienced in any long day. In fact, Arley thought he would be glad to get Jimmy Martini and a crucial catch

Gold Psychology" had his inning and the 2
Claremonters missed an apparently 3
easy run. That was the end of the 4
game, as from that moment to the 5
congratulation stage, Neville was palpably 6
the greatest of the great. He con- 7
tinued to outplay his opponent in every 8
other department of the game. The 9
fifteenth went to Grant, and by a 10
series of brilliant strokes, and when Grant 11
drove for the punchbowl, rest within 12
six inches of the cup it was all over 13
for him. The sixteenth and the 14
seventeenth were a game effort to hole out from the 15
edge of the green. Jack's drive lay down 16
the green, and Grant's lay on the 17
last fairway and he had to play 18
way off to the left of the green short 19
of the hole. Grant's drive was a 20
shot to the green and had a ten-foot 21
put for a half. Grant was down with 22
a green in two that Neville lost the 23
match of the day when he failed to sink 24
this putt. 25
"Golly," Armstrong had somewhat of 26
a word with 27

Porterfield runs for Ward in the fourth.
Summary: Reds responsible for—Martinson 1, Arlett 2, Ward 1, Redmond, Cohn, Hogan. Two base hit—Driscoll. Two errors—E. Martinez 4, Arlett 7. Base on balls—Martinson 5, Arlett 7. Wild pitches—Martinson 2. Arlett 1. Caught by pitcher—Ward. Time of game 1 hr 57m. Umpires—Latimer and Nealon.

and there was no advantage on either side in the morning play, but he began to get the better of him as the day wore on. The resumption of operations and eventually won out with four holes to spare. The Texas Phenom, had easy time with Kenneth Montague and Frank O'Brien respectively, but Salisbury had to struggle lively to secure a win over Grimes by two up. Two more Eastern players are disposed of when the Baileys, Peck et al. agree to give up the tournament at the hands, or rather the clubs, of Lamb and Bakard respectively, and the man who has been the survivor from the land of beyond the Rockies.

My interest is evinced in two of the matches scheduled for the penultimate round today. These being the ones of the famous Bird-Bankard and Armstrong-Grant and since the latter has a big gallery will follow the players

Results of the second round of match

Cleaner spark plug

Your spark plugs will keep cleaner if you use a straight-distilled, refinery gasoline.

A mixed or imperfectly refined gasoline builds up and deposits carbon instead of exploding completely.

1. The Sporting Editor: Runner on third; batter hits try to center fielder who juggles it, but holds it before it hits ground; runner from third started home as soon as ball touched fielder's hand, but before he really made catch. Ball returned to third and held there. Is runner out? 2. Where can I get a copy of the book of April 27th F.A.N.

1. Catch is legally made as soon as ball touched fielder's hand and runner can immediately leave base. If fielder was permitted to juggle ball and runner had to hold base until ball was securely in his hand, then might come running in, still juggling, until throw came to short. no chance would be given to score. 2. MAYROSE 9, SAN PABLO PARK 0.

The Mayrose Butters walked right through the San Pablo park club of Berkeley Sunday, July 16. The contest was interesting, although rather one-sided. The Berkeley boys were unable to hit Stobener, the Mayrose Butters pitcher. The latter club is piling up rather an enviable record for games won.

Mayrose Butters	9	11	E.
San Pablo Park	0	4	H.

MARRIED LIFE.

SUBJECT OF ATTACK

Meeting Ends in Disorder After Bitter Discussion of Plan.

(Continued From Page 13)

of interest in this matter. They believe that the people of Oakland should work in harmony with capital to secure best results. Consequently, they asked that the people be given opportunity to express their opinion on the matter, so the election of the board and allied matters would be decided on the basis of the feeling of the people. It has been called to have the people say whether they wish that waterfront developed and improved or not at some indefinite time in the future.

The election cannot grant a lease. It cannot obligate the city to make a lease. It can take nothing away from Oakland, and it will not give anything away. It discards her swaddling clothes and goes forth in competition with the great cities of the world.

In return for a lease on this land, now mainly covered with water, it is proposed to dredge the harbor, making it immediately available for the water shipping; to fill in to grade the land lying back of the harbor; to construct modern docks with all the latest devices for handling freight; to build on the leased land back of the waterfront modern warehouses, whose superstructure shall be erected under the jurisdiction of the State Railroad Commission; to make an aggressive campaign to bring to the city and the industrial institutions to Oakland and locate them on this land; to build spur tracks running to the waterfront and connect the docks to connect with the city's belt line tracks that will be on a wide street between the leased land and the waterfront, thus giving equal access to the waterfront that are now here or that may be here, and to give the waterfront access to other industries centered in the inner harbor and at other points.

In doing this the sum of \$1,000,000 will be expended within six years from date of lease. Of this sum \$1,500,000 will be expended in dredging the harbor, filling in the land and constructing the docks. Thereafter \$1,000,000 will be expended annually until the entire amount is spent, all for direct improvement of the city's property.

A rough sketch of a lease of this land, which would be made by the city, dock and harbor charges arising therefrom will belong to and will be collected by the city. The management of the docks, harbor and wharves will be in the hands of the city. What is now an eyesore will be converted into a hive of industry and commerce. The city will have one of the finest freight terminals in the country, where rail and water meet, constructed along the leased land and offering such facilities that the shipping of the world will be attracted. Its waterfront, with harbor, docks, wharves, warehouses and industrial institutions combined, will be a harmonious whole. It will increase the city's payroll by many million dollars each year. It will give the city thousands of employees on the docks and in the warehouses and factories, all of which will be owned and operated by the city. The improvement of contiguous land, and will bring to the city and the city that is deserved by its advantageous position, and which has been withheld from the city for many years. These facilities which it is now proposed to give to Oakland.

The management of the docks, harbor and wharves will be in the hands of the city. What is now an eyesore will be converted into a hive of industry and commerce. The city will have one of the finest freight terminals in the country, where rail and water meet, constructed along the leased land and offering such facilities that the shipping of the world will be attracted. Its waterfront, with harbor, docks, wharves, warehouses and industrial institutions combined, will be a harmonious whole. It will increase the city's payroll by many million dollars each year. It will give the city thousands of employees on the docks and in the warehouses and factories, all of which will be owned and operated by the city. The improvement of contiguous land, and will bring to the city and the city that is deserved by its advantageous position, and which has been withheld from the city for many years. These facilities which it is now proposed to give to Oakland.

DEATH STALKS IN BERLIN STREETS

Murder and Suicide Epidemic Blamed on War Conditions.

THE HAGUE, July 20.—A wave of murders and suicides is sweeping Berlin. Mental depression or insanity, due in some instances to the loss of relatives in the war, and others to lack of proper food, is held to be responsible for German criminality. During the past few weeks a sensational murder or suicide has occurred nearly every other day in Berlin. Many of them are being hushed up and others get but scant attention in the Berlin newspapers, because of the overwhelming interest in the war.

Two girls robbed another in a Berlin manure show a few days ago. To escape arrest they tried to hang her from a chandelier. She pleaded to be cut down. They let her body drop when she had become unconscious and killed her with a razor. Then they picked the body in a trunk and shipped it to another city. The girls were caught and sentenced.

LOVER IS MURDERER.

A brief item in the German papers, under the caption: "A Love Story," revealed a murder in a wealthy Berlin home. A young Russian, who had lived in Berlin as a servant of a German for seven years, became infatuated with the daughter of his employer and desired to marry her. She refused him time and again. One Sunday morning while she was alone in her bedroom, she attempted to escape the door and sprang at her. She escaped after a struggle and ran into a closet, locking the door. The Russian fired one shot through the door without wounding the girl and then attempted to commit suicide, shooting himself in the head. The girl's brother, an army officer who was at home on leave, heard the shots and ran into the room. The Russian seized a pair of scissors and stabbed him to death.

KILLS DESPONDENT SISTER.

Under the heading "Sentenced to Four Years' Imprisonment," the Berlin papers carried another war tragedy. A policeman shot and killed his sister. On the witness stand he pleaded that the girl was despondent and begged him to shoot her. He got off with a four-year sentence.

One evening a few days ago a German officer was seen walking along the canal with a young woman. Suddenly the woman ran toward the officer, plunged in and disappeared. "The officer made no attempt to restrain her or to save her," "I am Lieutenant B—," he said to passersby and entered a waiting taxicab and drove away.

When the body was recovered it was discovered that the girl was an actress at the Hollendorf theater.

The owner of one of the largest Berlin restaurants who had been at a city bank of the front in charge of a food supply station committed suicide recently. He left a note saying his wife was unfaithful to him while he was away. The orchestra continued to play in his restaurant while his body was borne away. Practically nothing is published in the Berlin papers about suicides, possibly because of the depressing psychological effect of such news. Frequently the papers carry a line saying that "a man and woman were found dead in a hotel on Unter den Linden today."

Drinks Poison Water; Ship Drifts

Odd Tale of Seas Is Carried to Port

LONG BEACH, July 20.—The steamer Four Sisters of San Francisco arrived here today with one of the most astonishing tales of the sea ever brought here.

Two members of the crew died from drinking poisoned water, and the remaining six, including Captain Heinrich Ruessler, lay unconscious for days while the vessel drifted north from the west coast of Mexico.

The Four Sisters was engaged in purchasing arms from Central Americans for the Carranza government. On Sunday, July 9, the vessel put out from Bahia Banderas with freshly filled water casks. Immediately after drinking the water, members of the crew became violently ill. Frank Brown, 43, a seaman of San Francisco, and Percy Stroff, 39, of Vancouver, died after drinking the water. Other crew members became unconscious. The vessel, under steam, drifted north. Finally, Captain Ruessler recovered sufficiently to take bearings. He headed his vessel to this port.

Hungarian Pianist Symphony Offering

Nikolai Sokoloff, conductor of the People's Philharmonic Orchestra, has prepared an interesting program for next Sunday afternoon's Popular Symphony Concert at the Cort Theater.

Every Sokoloff program is intended to reach the heart as well as the head of the audience. Every program has some outstanding feature, either the playing of a selection brand new; a new and ideal interpretation of the older works, or the presenting of a great soloist.

At next Sunday's concert, which commences promptly at three o'clock, Deider Josef Vesely, a celebrated Hungarian pianist, whose European tour was cut short by the war, and who has triumphed with the great symphony orchestras of Buda Pest, Berlin, Vienna, Paris, Monte Carlo and London, will make his American debut as soloist with orchestra.

Suspect Held After Auto Is Stolen

The inspectors' bureau is questioning Frank Segel today regarding his actions last night when the seven-passenger automobile of Daniel Magee, 630 Fifty-fourth street, was taken from Eighth and Pine streets. Magee was watching the boxing matches at the West Oakland Club, and when he came out at 10 o'clock the car was gone.

Inspector Robinson, sent to investigate, found that Segel had been sitting in a near-by machine at the time the automobile was supposed to have been taken. The young man said that he saw no one take the machine, but the detective took him along for observation. Outside police stations have been notified, as well as those in Berkeley and Alameda.

JAPANESE SAILORS SLIP POLICE POSSE

Men From Taisho Maru Dodge Under Decks as Officers Fire Pistols.

SAN FRANCISCO, July 20.—Five Japanese sailors on the steamship Taisho Maru with the agility of monkeys, climbed in and around under the docks on the south side of the embarcadero early this morning, defying several shift loads of police and making a desperate effort to escape to the Oriental quarter.

Two of them only were caught after Sergeant Bradford and four officers had climbed along the piles and at the point of revolvers forced them to jump into the water. Both the men captured carried large dirk knives which they had taken from the vessel.

The alarm was sounded at midnight and it was 4 a. m. before the police had finished the chase. The men caught were I. Mato and N. Yalchi. Those who escaped were C. Nagasaho, T. Kameyama and S. Bano. A watchman fired the contents of his revolver after them and believes he struck one as he dived under the docks.

Parish Members to Entertain at Whist

Members of St. Patrick's parish will participate this evening in a whist tournament in the West Oakland Auditorium, Tenth and Peralta streets. Daniel J. Mullins is chairman of the general committee of the entertainment and will preside at the entertainment as chairman of the evening. The following bevy of pretty girls will act as scorers: Delphine Cronin, Evelyn Brenner, Phoebe Garrison, Katherine Mullins, Rose Brady, Marie Plane, Dorothy King, Annie Mulkern, Kathryn Higgins, Delphine Kenny, Mary'Brien, Annie McCauley, Madeleine Holtz and Alice Rapch.

The reception committee for the evening comprises Supervisor John P. Mullins, Owen Shortt, Matt R. Bronner, E. F. Garrison, Rev. Edward Maher, W. F. Duddy, Eugene Cullen, William McNally, Dr. William O'Rourke, William T. McCarthy, J. F. Kenny, Austin O'Brien, P. W. Treacey and James McManis.

Constable Gregory of Richmond Is Dead

RICHMOND, July 20.—Constable J. A. Gregory, for many years a resident of this city and Contra Costa county, died at the family residence at 1215 Twelfth street and Ninth avenue, at 1 o'clock this morning. Constable Gregory was recently married for the second time. Shortly after the wedding he was taken ill and had been in a serious condition since.

He is survived by three daughters and a son, who is in Nogales, Ariz., with the National Guard.

No arrangements for the burial have been made, but it is likely the funeral will be held in Ione, where his first wife is buried and where he formerly resided.

BURDENS PLACED ON RAIL CARRIERS

Interstate Commerce Rule Grants Relief to Livestock Breeders.

WASHINGTON, July 20.—In a far-reaching opinion based on complaint of 100,000 livestock breeders against every interstate rail carrier in the United States—2278—the Interstate Commerce Commission today ordered:

Lower minimum weight regulations; higher liability valuations; less than two per cent increase for each 50 per cent of value in excess of standard value; same rates on crated as uncanted animals; less than carload shipments of horses, mules, horned animals, sheep and goats.

The commission also held shippers are not required to furnish attendants with shipments.

Swedish Aviators Are Killed in Maneuvers

STOCKHOLM, via London, July 20.—Two Swedish flight lieutenants, Mannstrom and Krus, were killed while engaged in flight. Their machine fell from a height of 300 feet.

Moore's Old Coachman Mourns at Bier

Once Loaned Magnate Entire Savings

CHICAGO, July 20.—When the funeral of James Hobart Moore, millionaire, was held at Lake Geneva yesterday, one of the sincerest mourners probably was William Beattie, called the richest coachman in the world, who has seen nearly twenty-five years in the service of the Moore household.

The man, whose kind act was said to have aided in the accumulation of the second fortune of upwards of \$50,000,000 which Mr. Moore has left to his widow, stood apart from the throng at the funeral, bowed with grief, an aged man, grizzled and bent, and he kept his eyes upon the casket until the crypt received it. The dead man had been his best friend.

Beattie had worked for Moore for 30 years when as a result of his Diamond Match operations the multimillionaire was made a pauper overnight.

"I was in an awful fix," Moore used to say. "I was worth less than nothing when Beattie came to me. He had been to the bank and drawn out every cent he had saved—\$2000. 'Take it,' he said. 'I got it from you and you are welcome to keep it as long as you want it.'"

Moore accepted the sum to tide him over some minor transactions which brought him great profits and re-established his credit. Then came the organization of the American Tin Plate Company, in which he was the

prime mover; the National Steel, the American Steel Hoop and other steel companies with a combined capitalization of \$187,000,000, which were absorbed by the United States Steel Corporation.

Moore never forgot the service of Beattie. He placed Beattie on the way of investments that netted him more than \$150,000. He put part of his money into a Tennessee plantation, but continued his work as a coachman.

OFFICERS WILL INSPECT ROADS

CHICAGO, July 20.—Federal officials, headed by Stephen T. Mather, assistant secretary of the interior, having in charge the expenditure of more than a half million dollars for the improvement of automobile roads in the national parks of the Northwest, passed through Chicago last night enroute to Yellowstone Park.

The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that over 80 years ago the genuine Castoria was first manufactured under the supervision of Chas. H. Fletcher for his father and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines. It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

Preparedness

The Owl Drug Co. believes in Preparedness. It is a keynote of our business. We help people prepare for many incidents and circumstances—for accident with first aid necessities, for illness with pure drugs, for the haps and mishaps of outings—for a hundred things of every-day life.

The above is what the advertising manager wrote. But Mr. R. E. Miller, president of The Owl Drug Co., had different ideas. "Make it stronger," he said. "Make it like this:

"We are for rational preparedness—a preparedness that will protect our citizens against every peril and hardship—against invasion from abroad, and misfortune and injustice at home. We are for every kind of preparedness that tends to protect the lives of our people—in peace and war,—that preparedness that guards the home and the individual and tends to the moral and physical welfare, the education, happiness and prosperity of every man, woman and child in our country."

Preparedness Is the Idea Behind a Number of Typical Owl Specials for Friday and Saturday

Prepare for Hot Days

Many Talcums at all prices to choose from
